"BRILLIANT"

EVERBEARING STRAWBERRY

BEARS ALL
SUMMER LONG

MARVELOUS COLOR • WONDERFUL SIZE

The Brilliant Everbearing is absolutely a new type of everbearing strawberry; one that will make plants freely and at the same time keep fruiting steadily all summer and fall.

It is a 100% pollenizer and produces berries of enormous size and exceptional flavor. It is the finest berry for freezing and preserving and when frozen or used as a preserve, Brilliant is of a bright red color and absolutely will not fade.

**PRICE: 25 for \$3.25; 50 for \$5.75;
100 for \$9.95, Postpaid.**

BRIDGMAN, MICHIGAN

Scarlet BEAUTY

THE WORLD'S GREATEST STRAWBERRY

The size of Scarlet Beauty is practically indescribable. The plant is peculiar, inasmuch as it only sends out one fruit stem, but this fruit stem will have from two to three huge berries on every plant. This variety will produce as many or more quarts per acre than Premier. Fruit is outstanding due to its size and coloring.

Late Fruiting Season

Scarlet Beauty commences to ripen about the time Premier is finished. Continues to bear over a long picking season, and this semi-late fruiting brings it on the market when, in most sections, there are no strawberries to be had.

Huge Size, Bright Color

The berry itself is extremely brilliant red in color and has a large bright green calyx. This makes for beautifully appearing berries as they al-

ways look fresh no matter how long they have been packed. Buyers on the market marvel at the brilliant red color of this variety, coupled with the bright coloring of the calyx, which always makes it command a high market price. We believe that the Scarlet Beauty will produce more huge, first-class berries than any variety that we have ever seen. At least 100 plants should be in every garden in the U.S.A. It's a marvel in size, coloring and appearance.

Thrives in Poor Soil

Due to its plant making ability, the Scarlet Beauty will thrive and produce a crop of berries on rather poor soil. Scarlet Beauty is a perfect flowering variety which requires no pollinizing. The plant is rather small but exceptionally long rooted. It has healthy foliage, is an excellent plant maker, and an immense producer. **Perfect flowering.**

Our Personal Visit To Your Home AN HONEST STATEMENT ABOUT STAHELIN'S QUALITY NURSERY STOCK

We sincerely hope that the price trend in the future will be down. Prices on nursery stock have changed very little during the past five years which has put a great many nurserymen out of business, due to the high cost of everything that goes into the production of good nursery stock. Weather conditions all over the United States the past five months have been especially hot and dry. With our two irrigation systems we have been able to save most of our plants and they are better rooted than ever as dry weather makes for good root systems. While some items have been taken out of our catalog, they will be added again with normal weather. Strawberry plants will be especially short and due to the high prices of fruit for the past five years and the fact that the canning factories are sold out now, makes for a good demand for some time to come. Reserve your stock early by making a small deposit; it helps us and guarantees your delivery.

C. A. Stahelin

CERTIFICATE OF NURSERY INSPECTION

Michigan State Department of Agriculture—Orchard and Nursery Inspection No. 6214.

This is to certify that the nursery stock of Stahelin's Nursery, Bridgman, Michigan, has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant diseases. Fee paid \$39.00.

Chas. Figy, Commissioner,
Lansing, Mich.

Bureau of Agricultural Industry,
C. A. Boyer, Director.

Aug. 12, 1953

Save WITH Stahelin's 10% CASH DISCOUNTS

All orders received during January and up to February 3rd, 1954, with cash in full enclosed, are subject to a 10% discount. No cash discounts on bargains or special quotations made by mail. **This discount not good after February 3rd, 1954.**

DON'T WAIT TO ORDER

Our customers have been very fine in the past few years in placing their orders early. Please remember that the shipping of strawberry, asparagus and that class of plants, depends entirely on weather conditions here. **WE POSITIVELY DO NOT SHIP ANY STORAGE PLANTS.** We will endeavor to fill your order as close to the time specified as we can, but if excessive rain or cold weather hits us at that time of year, there may be a slight delay.

TRANSPORTATION

Unless otherwise stated in catalog, transportation charges on all stock listed in this catalog are to be paid by the customer, as the weight of nursery stock cannot be determined exactly in advance of shipment.

FALL SHIPMENTS

We encourage the fall planting of nursery stock. Plants and trees are dormant then, and when warm weather comes in the spring, your stock is ready to commence growing. Nursery stock cannot be shipped until it has had some cold weather to harden it up, and fall shipments are usually made after the middle of October. **NO DISCOUNT ON FALL ORDERS.**

TERMS ON C.O.D. ORDERS

We can ship C.O.D. if the order amounts to \$5.00 or more at full catalog price, no discount allowed, but 25c on each dollar must be included with your order as a down payment. If order amounts to \$5.00, send \$1.25 with the order; if \$6.00, send \$1.50, etc. You may inspect express shipments before you pay. (Parcel Post not subject to examination.) If satisfactory, pay the agent the amount due. **No C.O.D. shipments made after April 25th.**

NOTICE

For approximate shipping charges, refer to the back of our order sheet enclosed with this catalog. Complete schedules and rates, as closely as they can be figured, will be found there.

STAHELIN'S GUARANTEE

We guarantee our stock to be true to name. If it proves otherwise, it will be replaced free of charge.

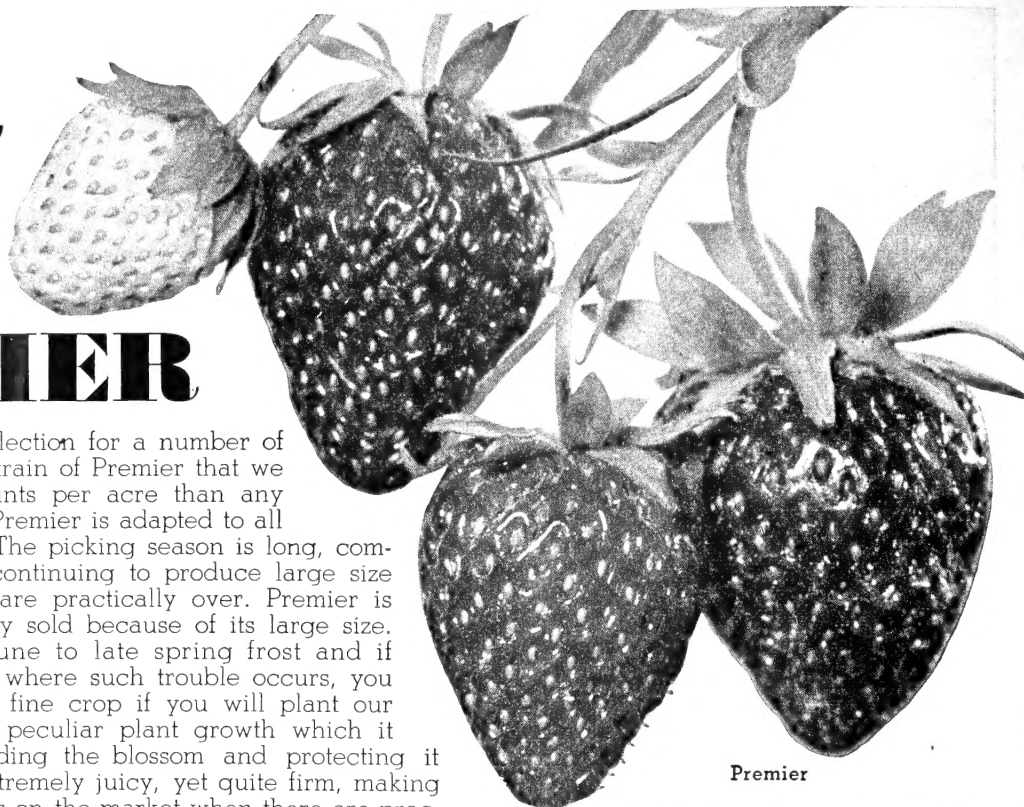

We guarantee that our stock is exactly as described in our catalog and is guaranteed to reach you in live and growing condition. Any stock not being as described above, will be replaced free of charge, but the customer must report this condition **AT ONCE** upon receipt of shipment.

If the shipment is unduly long in reaching you, be sure to secure a signed statement from your local agent and send it to us.

Weather and other conditions being beyond our control, continued growth is not guaranteed.

FAMOUS
For Its
"FROST-PROOF"
Qualities

Popular
PREMIER

Premier

By means of careful plant selection for a number of years, we have perfected a strain of Premier that we know will produce more plants per acre than any other strain of Premier. Our Premier is adapted to all soil and climatic conditions. The picking season is long, commencing with the first and continuing to produce large size fruit until the late varieties are practically over. Premier is very easily picked, and easily sold because of its large size. Premier is practically immune to late spring frost and if you are located in a section where such trouble occurs, you can be assured of getting a fine crop if you will plant our Premier. This is due to the peculiar plant growth which it makes, almost completely hiding the blossom and protecting it from severe cold. Berry is extremely juicy, yet quite firm, making it an excellent shipper. Comes on the market when there are practically no other strawberries. Fruit is bright showy red with a large calyx. For a big crop of fine fruit in spite of cold weather when plants are in blossom, plant Premier.

Fairland

Delicious Hardy
FAIRLAND

Fairland is another one of the varieties developed by the U.S. Department of Agriculture to combat the Red Stele disease. Fairland is being grown very generally in Berrien County, Michigan, one of the biggest strawberry growing sections of the Country, as a market berry, and our growers here make very favorable reports on it. The Fairland Strawberry ripens just a few days after Premier. It is just as productive as Premier with a firmer berry. The berries are large in size and an attractive light red color. Fairland has proved to be an excellent shipper and as it is entirely Red Stele resistant, it does particularly well in the middle and northern states. A fine variety for gardens and one of the best we know of for freezing. Berries are of good quality and the flavor is excellent. This variety is a good plant maker and one which we recommend to you for trial as we know you will like it.

Superior New BRIGHT RED — SUPERBLY FLAVORED **BRILLIANT**

PATENT No. 1183

Everbearing Strawberry *Has Everything*

This sensational new Everbearer rates a winning score on every point: **Larger Size. Brighter Red Color. Outstanding Flavor. Best Canning and Freezing Qualities. Greater Yield. Strength and Vigor of Plants.** No other Everbearer can match BRILLIANT for uniformly large, top quality, bright red berries. The color is absolutely bright red clear through even when mashed or finely cut. The flavor is a mouth-watering, tangy, true-strawberry flavor, which most Everbearers lack.

BRILLIANT is a superior berry for home freezing and canning—retaining its vigorous flavor, rich color and firm quality. And for fresh desserts it offers you a real taste-thrill!

Better Plants Mean Bigger Profits

There is no question about it. The only way to get bigger profits is by growing big money-making crops. Healthy, vigorous plants with strong root systems are insurance against crop failure. BRILLIANT has proved itself under all conditions of soil and climate. Where other varieties fail due to excessive rains or drought, BRILLIANT will thrive and bear steadily throughout the fruiting season.

A Keplinger Origination

BRILLIANT is another find of that plant wizard F. J. Keplinger, who also produced the Gem and the Superfection. Originated in northern Michigan, the plants are extremely hardy. We believe BRILLIANT will become the leading Everbearer because of its many superior qualities.

*Plant
Now!*

and Get in on BIG Cash Profits

Do you want a sure-fire, quick money-making crop? Then try a planting of BRILLIANT this spring and you will realize greater profits per acre than ever before. These high-powered plants will start to bear in just a few weeks after setting out, and will keep right on producing steadily all summer and fall. BRILLIANT'S amazingly high production—one to two quarts of berries per plant, over 2000 quarts more per acre, than any other Everbearer—will earn you big cash profits right from the start.

Save on Food Budget—Earn Extra Cash Too

Brilliant yields such enormous crops, even a small planting of less than an acre will provide enough berries for every home need and give you a large surplus to market locally. These berries are so big and handsome, they always bring top prices on the fancy fruit market. You can make yourself a nice cash income and save on food budget, too, by planting BRILLIANT this spring. Order your plants now.

Proper Planting Is Essential

The more Everbearing strawberries that you set on an acre the more fruit you can expect as the bulk of the crop is produced on the mother plant. Set your BRILLIANT plants 12 inches apart in the row, planting 3 rows that are 12 inches apart, then skipping about 40 inches and plant 3 rows more; in other words, so that your plants are 12 inches square in the 3 rows. Runners and blossoms should be cut off until mid August and after that you can let them grow as you wish. BRILLIANT is a 100% perfect pollinizer and the only Everbearing that makes a solid picking row. Complete cultural instructions free with each order upon request.

New Red Crop

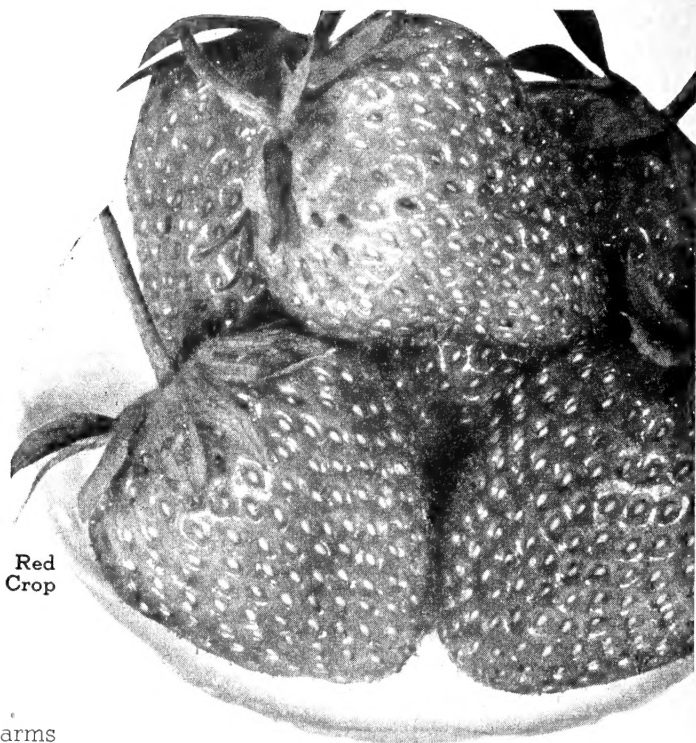

This Berry Is Bright Red Throughout

Red Crop is a midseason to late variety. It makes an excellent frozen product because it carries its color through the entire berry. It has quite an attractive calyx and is medium to large in size and very firm. It is absolutely immune to all root diseases, including Red Stele. It is a large plant maker, very vigorous, and it makes a well matted row. Perfect flowering. If you have trouble growing strawberries on wet soil, try Red Crop.

Red Crop

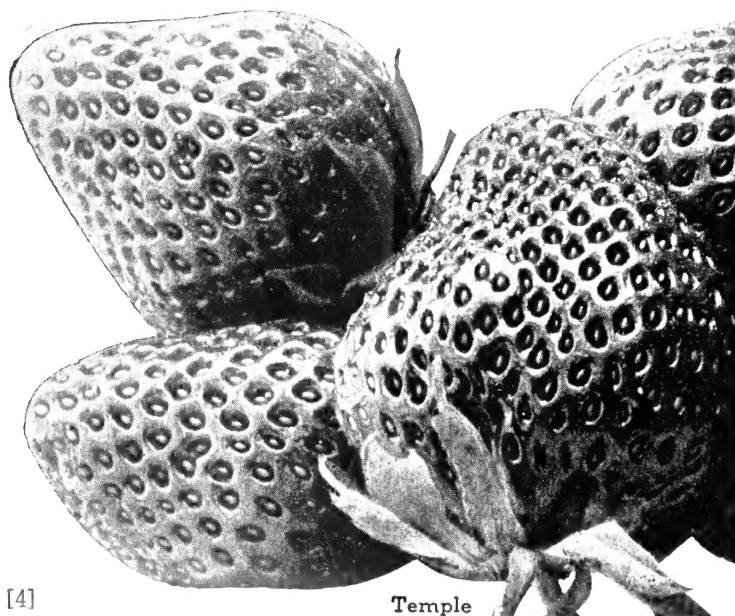

TEMPLE

We have fruited Temple quite extensively here on our farms for the past several years and think that it is one of the finest dessert strawberries we have ever picked. It has a beautiful dark red color and is very firm when fully ripe. Flavor is excellent and its dark red color, clear through, makes it very desirable for freezing. Temple is a very remarkable grower, will survive wet weather conditions under which the ordinary strawberry would be a total failure. Plants grow unusually tall, yield heavily, and fruit ripens a few days later than Premier. Berries are large, have a brilliant calyx and present a fine appearance when packed. Due to its firmness and color Temple is a very good shipper. We believe commercial plantings of this variety should be increased.

PRICES:

25 for \$1.35	100 for \$ 3.25	500 for \$ 9.75
50 for 2.35	250 for 6.75	1000 for 18.00

Temple

New SPARKLE

The Sparkle strawberry, which gets its name from its sparkling appearance, came to us from the New Jersey Experimental Station. This variety is very resistant to Red Stele and other strawberry diseases which sometimes attack the weaker varieties. Will do well even under wet weather conditions, where ordinary varieties would soon die. A good plant maker, it yields heavy crops and is mid-season in ripening. A quality berry, uniform in shape, medium to large in size. Excellent for freezing.

PRICES:

New "Red Cluster"

June Spring Bearing Strawberry

Formerly called June in last Spring Catalog

The "Red Cluster" is a spring bearing variety offered for the second time.

ADAPTABLE TO WET SOIL

It grows on wet soil with no root damage being quite immune to Red Stele. The plants are very upright, quite large and have a leathery foliage. It is a good plant maker and produces enormous quantities of pointed berries that are absolutely dark red throughout the entire fruit. Perfect flowering.

BERRIES VERY FIRM GOOD SHIPPER

The berries are very firm, and will ripen a few days before Premier. The berries are very large in size and maintain their size throughout the picking season. They are superior to Premier as we had them growing side by side last year and they out-produced Premier a great deal. There are not a great many of these plants available yet this season. We know you will be pleased with it and that it will be a strawberry that you will be proud to show to your friends. **PRICES:** 25 for \$1.35; 50 for \$2.35; 100 for \$3.45; 250 for \$6.45; 500 for \$10.25; 1000 for \$18.50;

Red Cluster

SENATOR DUNLAP

The oldest strawberry that is listed by most catalogs. It was popular thirty years ago and still is. Its popularity comes from the housewife who buys the Senator Dunlap for her garden. As it is an outstanding variety for home use and canning. The berry is pointed and the variety is hardy and a good plant maker. It is perfect flowering.

PRICES:

25 for \$1.25	250 for \$ 4.75
50 for 1.65	500 for 8.00
100 for 2.65	1000 for 13.50

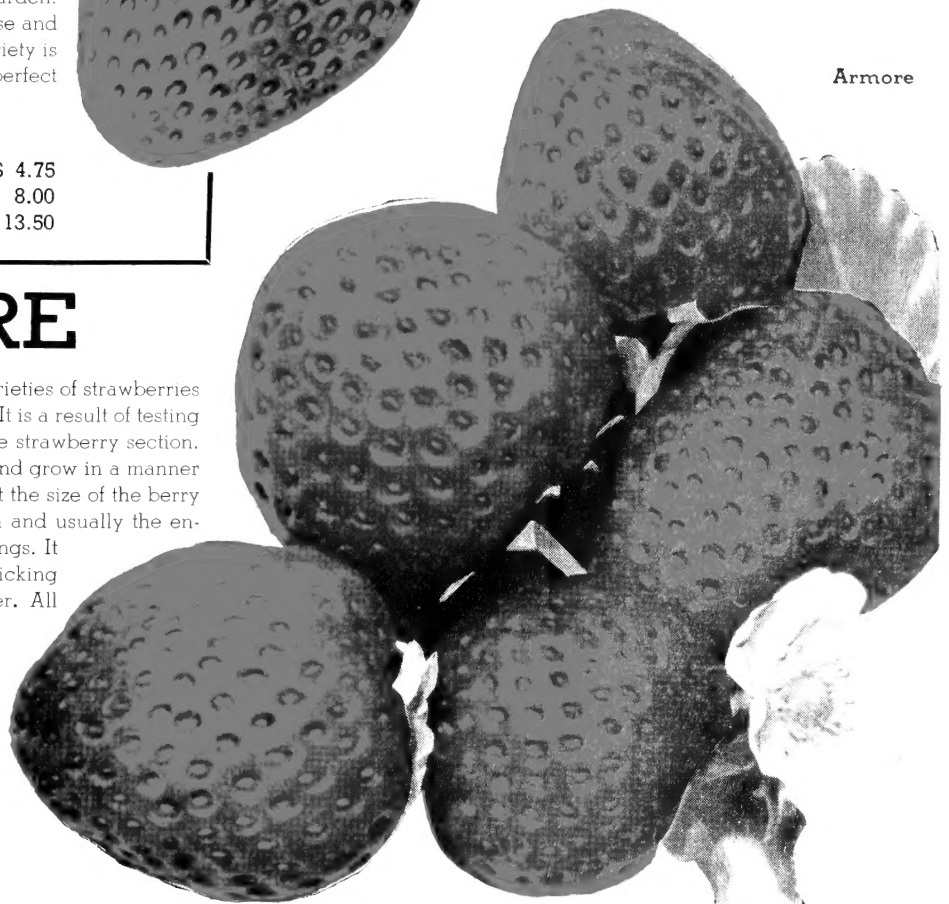

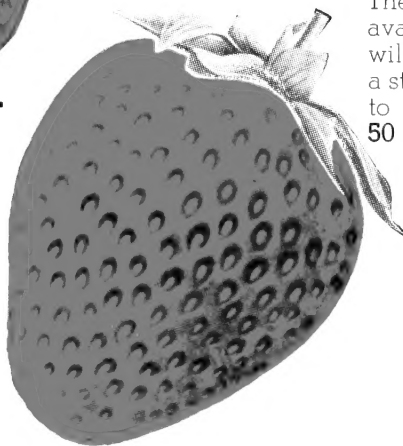

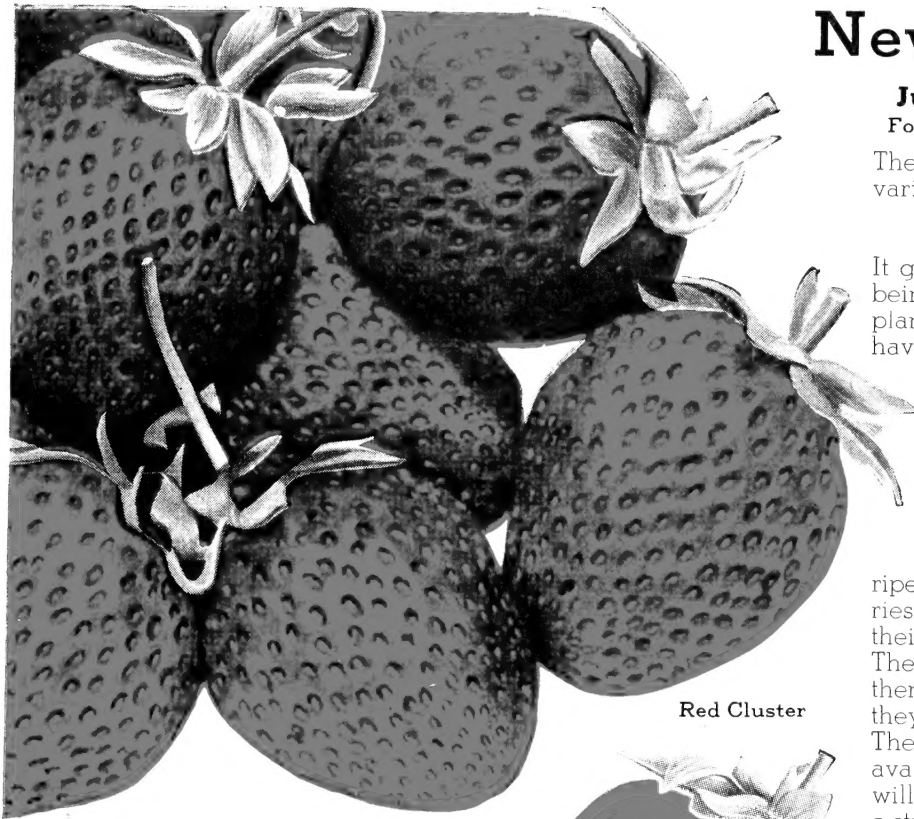

ARMORE

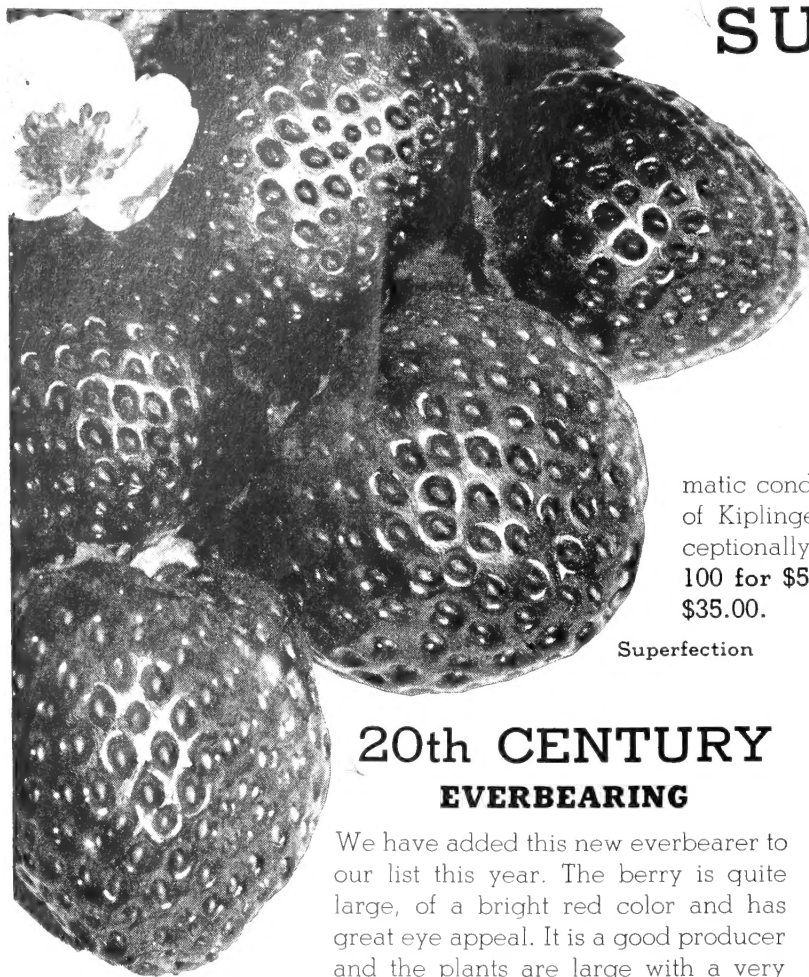

The Armore is one of the finest of the new varieties of strawberries that has been produced in the last few years. It is a result of testing by an experimental station in the heart of the strawberry section. It is perfect flowering. The plants are large and grow in a manner that will properly space them. Due to this fact the size of the berry is maintained throughout the picking season and usually the entire crop can be picked in about three pickings. It is a perfect shipper and makes a perfect picking row on light soil. It is a top-notch producer. All commercial growers are wanting this variety and we have a fair supply but we suggest you place your order as early as possible.

PRICES:

25 for \$1.45	250 for \$ 7.50
50 for 2.50	500 for 11.50
100 for 3.50	1000 for 21.00

Armore

Superfection

20th CENTURY EVERBEARING

We have added this new everbearer to our list this year. The berry is quite large, of a bright red color and has great eye appeal. It is a good producer and the plants are large with a very leathery foliage. It is a scientific cross of the old Rockhill and the Supreme varieties and it has inherited a lot of the good points of these two sorts and will make plants quite freely. Perfect flowering. It is a variety you should try in a small way. It is a superior variety for jellies and jams. It is very sweet in flavor and is excellent for table use. Unexcelled for eating out of hand.

PRICES: 25 for \$3.75, 50 for \$6.25, 100 for \$9.50. Shortage of plants makes us limit this variety to 100 to a customer.

red rich
EVERBEARING

TRADE MARK

AMAZING NEW EVERBEARER

This year we add Red Rich to our list of everbearing strawberries as a variety that every gardener should try. Red Rich is a dark red, tough skinned variety that is honey sweet. The plants grow to immense size. Given plenty of moisture during its fruiting season, the amount of berries that Red Rich produces will astonish you. Originating in Minnesota, Red Rich is very hardy. Set on good fertile soil, a good row can be produced and you will like the pleasant flavor and fine dark color of the Red Rich berries.

SUPERFECTION

KING OF THE EVERBEARERS

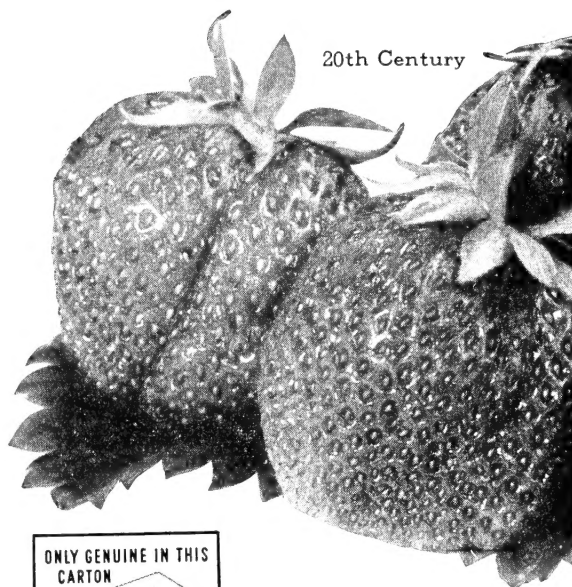

The superfection everbearing strawberry is of northern Michigan origination.

Continuous Bearer

It bears almost continuously from a short time after planting until cold weather arrives.

Excellent Shipper

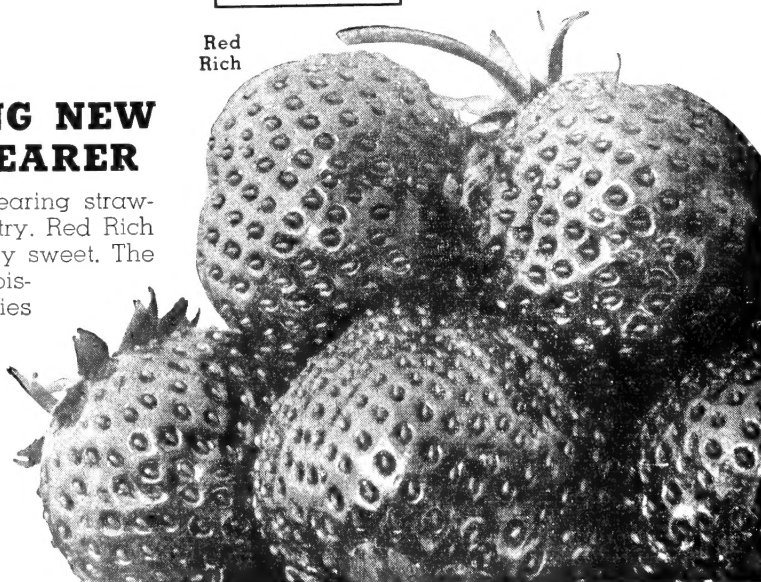

Berries are slightly round, quite firm in texture, making them good shippers without damage. They have a very good flavor. In the common everbearing varieties, this is one of the best. It does well under all climatic conditions and we urge you to try this variety. It is of Kiplinger origination, therefore guaranteed to be exceptionally hardy. **PRICES:** 25 for \$1.95; 50 for \$3.25; 100 for \$5.50; 250 for \$11.00; 500 for \$20.00; 1000 for \$35.00.

Red
Rich

BLACK RASPBERRIES

MORRISON

THE GIANT BLACK RASPBERRY

This variety originated as a chance seedling in northern Ohio and has attracted a great deal of attention by commercial growers because of its abnormal size. The plant is an extra strong grower, being quite free from the common black raspberry diseases. Ripens somewhat later than Cumberland and has a very dark glossy color. Berries are firm in texture and high in quality. Plants are not plentiful and price is somewhat higher than commonly asked for the old varieties, but we believe a trial planting will prove they are worth more.

PRICES—1 Year No. 1 Plants

CUMBERLAND KING OF THE BLACKCAPS

Most popular black raspberry today because of its great size, beauty, firmness and productiveness. The fruit is the largest of the black raspberry family, often measuring almost an inch in diameter. Cumberland is very hardy, will stand severe drought and cold weather conditions well, without injury. It sets a great many berries, and should be heavily trimmed to get best results. Wonderful canning berry, makes delicious pies and jelly. Commands top market prices. Almost disease free and very popular because of this quality. Able to grow on almost any soil that is not wet.

Morrison

LOGAN EARLY SWEET BLACK RASPBERRY

An Ohio origination. Logan ripens seven to ten days ahead of Cumberland, which allows the grower to get on the market ahead of other varieties, giving him an opportunity to make some real money. Produces immense crops of jet black berries, as large as Cumberland. Does not crumble, and the last picking looks as nice as the first. Stands severe weather conditions. A great deal of its present popularity is due to its "disease-free qualities." Of high dessert quality and fine for canning.

Make Money on Raspberries
the First Year!

Plant PROFITABLE 2-yr.-old
BEARING AGE PLANTS

As a great many of our customers desire quick results in their gardens, we have produced a few thousand of these large size black raspberry plants to supply this demand. These black raspberry plants are very large. They will run from 18 to 24 inches in height. They will all be branched and they will have a mass of heavy roots. If you plant them carefully every one of them will live and will produce a partial crop for you the first year. A great many commercial growers are planting this type of plant as it assures them of getting a full crop in two years, whereas the one year plants must be grown three years in the field before they will bear to any extent. We suggest to those that order these two year plants that they cut them back to some extent and not allow them to bear fully the first year.

FINE RED RASPBERRIES

Latham

LATHAM THE FAMOUS LATE RED RASPBERRY

The Latham is a big, late ripening, red raspberry that grows on a very stiff cane and comes on the market at a time when practically all other raspberries are gone. Very productive, it will produce from 5,000 to 7,000 quarts per acre, which is about twice as much as any other red raspberry available today. This is a superior variety which does well in all sections of the country. It is adaptable to all sorts of soil conditions, climates, and locations. Cold weather has no effect on Latham as it originated in Minnesota. A great shipping and canning berry. Produces fruit of large size, fine color, and good flavor.

The plants we offer are of the best quality and carry triple inspection certificates as being disease-free. Planted on disease-free soil they can be kept this way.

SUNRISE THE FINEST EARLY RASPBERRY TODAY

An excellent red raspberry, which we recommend very highly. It starts to ripen in Michigan the latter part of June, about two weeks ahead of Latham, and because of its habit of sending up long shoots from the bottom of the cane, which ripen later than the buds at the top, it has an extremely long picking season. About the size of Latham, and a bright red when ripening. Fine textured, juicy; does not crumble, and is very firm. Does not require expert attention to grow. Plants are vigorous and bear heavily. Easy to pick and sell.

EVERBEARING RED RASPBERRY

New September

The New September everbearing Raspberry was introduced by the New York State Fruit Testing Association in 1947. It is a result of a number of crossings. The plants are of a very good size and the fruit is of excellent quality and when ripened show no signs of crumbling. One feature of the New September is that it ripens a great many days earlier than most other Fall bearing varieties, thus getting a chance to mature its crop before cold weather sets in. In the Spring it is very early and will ripen before practically any other common sorts of raspberries are in. The plants are vigorous and very hardy and should be a fine addition to the home garden. The variety is new and plants are somewhat scarce, so plant a few in your garden for trial.

WILLAMETTE Giant New Red

Willamette is one of the most promising of the new Red Raspberries. It is a very vigorous grower, making a nice growth under adverse circumstances. The fruit of Willamette is very large, shaped somewhat conical, comes off the vine easily and is a beautiful red color.

Best For Canning Preserving

On tests made locally by the leading canners, their report is as follows: (the best looking Red Raspberry that we have tried. It does not crumble when canning and does not fade. We wish that we could get a great many tons of them for preserving and canning.) If the canners think this of the Willamette, it has a great future. The ripening is about the same as Latham.

New EARLY RED Red Raspberry

Early Red

The New Early Red raspberry originated at the South Haven Experimental Station in 1931. Since that time, we have watched it carefully. It has been commercially tested in this famous raspberry growing section for the past ten years. It is the earliest maturing red raspberry that we know of and comes on the market when prices are higher than the later varieties. Plants of Early Red are upright, vigorous, hardy and very productive. In our garden here last year, from one single plant, over a pint of berries was picked at one picking. The fruit is conical, light red when first ripe and it separates from the vine easily. This is important as the berries are easy to pick while firm and the harvesting can be done before they are too soft. Due to its parentage, it has inherited much of the excellent flavor of the old Cuthbert. The plants are limited but we offer them in 1000 lots at a price almost anyone can afford to pay.

PRICES:

1-Yr. No. 1 Plants

12 for \$3.25 25 for \$5.75 50 for \$11.00 100 for \$17.50

SODUS PURPLE RASPBERRY

The leading PURPLE RASPBERRY today. It was introduced by the New York Experimental Station several years ago. Plants are very vigorous, very productive, and very hardy. Sodus ripens shortly after Latham. Popular wherever offered.

PRICES: 1-Yr. No. 1 Plants Only

25 for \$2.95 50 for \$5.10 100 for \$9.00
250 for \$20.00 500 for \$37.50 [9]

Giant Cultivated BLUEBERRIES

Rubel

The cultivated blueberry will bring more money per acre than any other type of berry plant that we know of today. These marvelous berries can be grown on any soil that is moist and has a slight acid reaction. The fruit is remarkably large and the quantity is such that you cannot adequately describe it. Free cultural instructions upon request.

RANCOCAS Early

The Rancocas variety of blueberry is of excellent quality, and a very good shipper. The bush does not grow as tall as Rubel, but it produces a lot of fruit over a long picking season. Always commands a good price because it is early. **PRICED BELOW.**

STANLEY Early Midseason

A tall vigorous grower. Produces very large berries of wonderful quality. Bush has thick shiny leaves. A good variety to plant as companion to Rubel and Jersey. Vigorous plants, large berries, very productive. Available in 2 yr., 3 yr., and 4 yr. old plants. **PRICED BELOW.**

JERSEY Midseason

In our opinion, Jersey is superior to some of the other blueberries. The bush is very upright, vigorous, and a large producer. Fruit is enormous, very attractive, firm and sweet. **PRICED BELOW.**

BARGAIN NO. 5

Four of our finest blueberry plants. They will soon bear enormous crops. Your choice of varieties.

3—3-yr. old plants **\$6.45**
1—5-8-yr. old plant

Net. No Discount

RUBEL Late

This variety was one of the first to be offered to the public and is still one of the best. It is a parent of many of the present hybrids. Bush is upright, vigorous, hardy, and a heavy bearer of large fruit. **PRICED BELOW.**

BLUEBERRY PRICES: Always set two plants for best results.

	2	5	10	50	100
2 Yr. 8-12" total height	\$ 1.60	\$ 3.75	\$ 6.95	\$28.75	\$52.00

4 Yr. 18-24" ready to bear	3.60	8.00	15.50	75.00	130.00
5-8 Yr. Specimen Plants					
24-30" in height, each	\$3.50	6.75	16.50	31.50	

We can make special prices on blueberries in lots of 500 or more. Set 5 ft. by 10 ft. it requires 872 plants to set one acre. Only small sizes available. 4 yr. and 5 to 8 yr. plants must be shipped by express as they are too heavy for parcel post.

TREAT YOURSELF TO SOME FRESH BLUE-BERRIES AT \$4.10 PER CASE OF 12 PINTS

Our customers have asked us repeatedly to supply them with fresh blueberries. This year we offer these selected blueberries to our customers. Put up in an attractive package of 12 pints, all selected berries. Every case is cellophane wrapped and guaranteed to reach you in perfect condition, ready to eat or to freeze.

Every case will be prepaid by Parcel Post but add 20c if west of the Mississippi and east of the Rockies. Far western states as Utah, Idaho, Washington and California add 75c per case to the above cost.

Fresh berries will be available at any time after July 20th.

Almost A Full Crop In One Year With *Strong* BEARING AGE PLANTS

Do you want to pick blueberries this year and get almost a full crop next year? Plant our large BEARING AGE PLANTS. Full of fruit buds now. 24-30 in. in height and from 5 to 8 years old. RUBEL, RANCOCAS & JERSEY only. Price \$3.50 each, 2 for \$6.75. See list above for prices on larger quantities.

GOLDENETTE

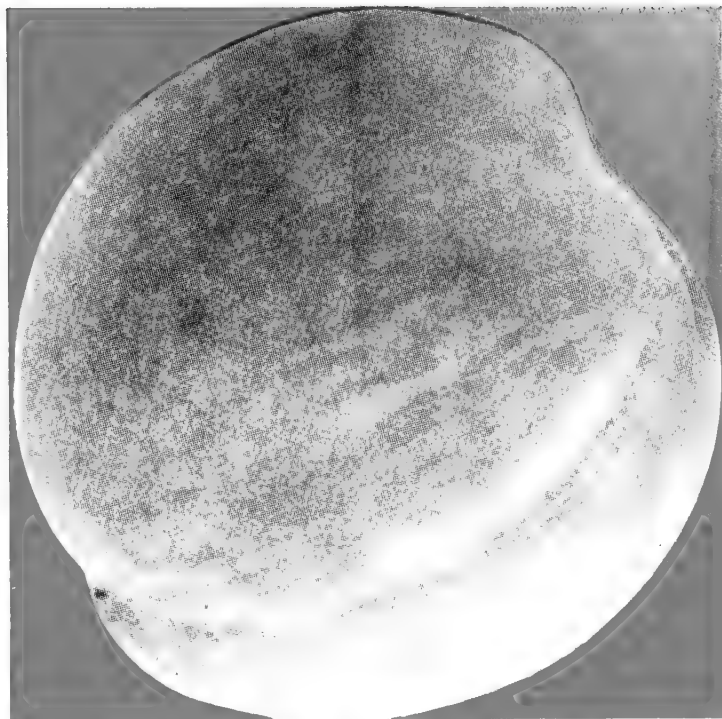

Patent applied for.

THE PERFECT PEACH ➡

We call the Goldenette the perfect peach because we sincerely think there is no peach that is as good. This year Goldenette has proven to be the most desirable peach that we have. It's high in quality and it's a yellow freestone variety. It's as large as Hale, has a better yellow color and is a most wonderful peach for processing that we know of. It is almost perfectly round and has a very tough skin but when you once get through this skin, the inside is the most deliciously flavored peach that we have ever tasted. Its pit is surrounded by red color. We think so much of this variety that we have planted 10 acres solid of Goldenette for the Benton Harbor Market. Everyone should try it.

Canada Red RHUBARB

The Chipman strain of Canada Red Rhubarb is the finest obtainable today. A decided improvement over common Canada Red. **PRICES: Large Divisions, each \$0.65; 3 for \$1.80; 10 for \$5.50; 100 for \$45.00.**

Do you want a peach as large as J. H. Hale and as sweet as honey? If you do, plant the White Hale, an entirely freestone peach of marvelous size. It is hardy, originating on our farm in Michigan. It has produced a crop practically every year since we introduced it. It ripens in mid-season and is a valuable addition to any home garden.

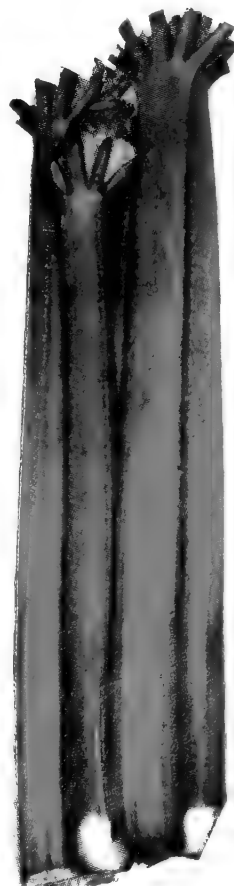

Valentine RHUBARB

Newest of the red varieties. Developed in Canada. Large stalks of extremely dark red color. Flesh is very tender and has a fine flavor. Produces a bright red sauce, excellent for pies! **PRICES: Large divisions each \$0.85; 3 for \$2.40; 10 for \$7.50; 25 for \$17.50.**

MacDonald RHUBARB

A Canadian origination, it is bright cherry red the full length of the stalk, very large size and huge producer. **PRICES: Large Divisions \$0.65; 3 for \$1.80; 10 for \$5.50; 100 for \$45.00.**

[11]

The Finest That Money Can Buy PEACH TREES

HALEHAVEN

Early—Excellent Shipper, Canner

Colors all red long before it is ripe, and retains its richness of flavor over a long period. Is round in shape, very sweet flavor, and ripens about a week before Elberta, Freestone. Halehaven is one of the greatest shipping and canning peaches ever introduced. It was originated in Michigan. It is hardy and self-pollinizing. One of our most popular peaches here. Wonderful for distant shipping. **PRICED BELOW.**

REDHAVEN

Excellent Extra Early Market Peach

The Redhaven peach is a Michigan origination, which makes it especially hardy. It is practically the earliest peach that we have and as it carries a good red color long before it ripens, you can pick it almost any time you desire. It is an excellent shipper. Fruit is very firm, easy to handle, bright red in color, with golden firm-textured flesh. **PRICED BELOW.**

FAIRHAVEN

Early—Heavy Producer—Hardy

We have increased our planting on Fairhaven Peach trees and can now offer them at a very attractive price. This is a wonderful variety and we urge the commercial planters to set it heavily. It is very hardy and during the seasons when the blossoming period is cold or foggy, it will produce a full crop of fruit when many other varieties would fail. Fruit is nearly round, mostly bright golden color, with an attractive red cheek which shows up when the fruit is still very green. Fairhaven is an excellent shipper. It matures about a week before Hale Haven and right at the end of the Redhaven season. Freestone. **PRICED BELOW.**

GOLDEN JUBILEE

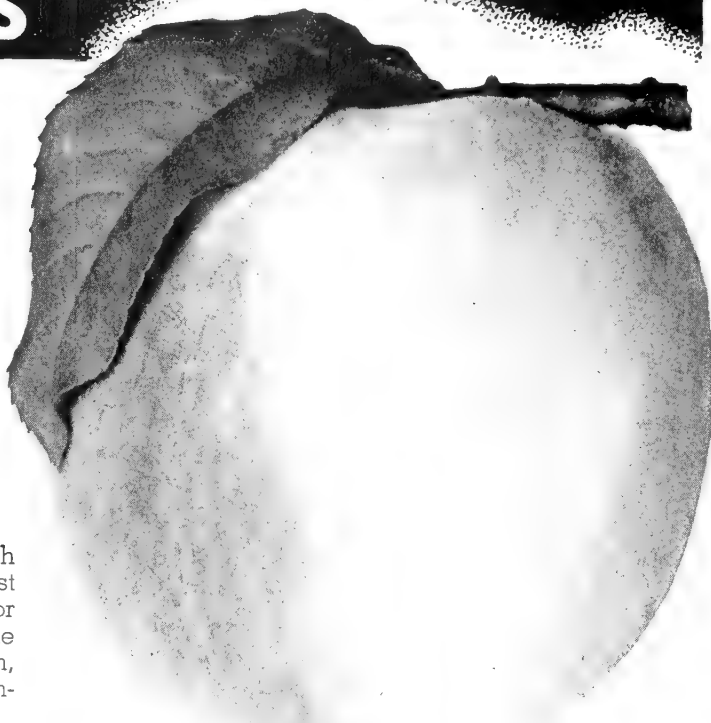

Sweet and Juicy—Frost Resistant

Very early. Excellent for commercial planting. Fruit is somewhat oblong in shape and has a brilliant golden color with a slightly red cheek on one side. It is golden-fleshed, very juicy, and a freestone. Perfect pollinizer. The tree is extremely hardy, producing fruit when other varieties are frozen. Fruit is delicious in flavor, excellent for desserts and canning. **PRICED AT RIGHT.**

PERFECT HALE

A Money-Maker—Weathers Drought—Cold

A perfect flowering yellow variety. The Perfect Hale will ripen a few days after you have picked your Elberta peaches. This will lengthen your picking season a great deal. This is an Elberta type, although it is nearly round in shape. It has the rich "Hale" flavor, but its quality is about like Elberta, although it is more highly colored. Flesh is exceptionally firm, and richly flavored. Freestone. Perfect Hale has proved to be one of the best in hardiness. **PRICED AT RIGHT.** [12]

Halehaven

KALHAVEN

Immense—Red All Over—Good Shipper

A Michigan Peach which is a result of a cross between the J. H. Hale and the old Kalamazoo variety. Immense in size, its color and flavor are excellent. Very hardy. Fruit is large, round in shape, a beautiful red color all over, and an extremely good shipper. Ripens a few days after Elberta. Freestone and self-pollinizing. When canned presents a golden peach of outstanding flavor and texture. **PRICED BELOW.**

J. H. HALE

Extra Large Size—Very Profitable

J. H. Hale is extra large in size, round in shape, with a yellow flesh and deeply flushed cheeks. It is highly prized as a canning variety due to its red center. J. H. Hale is freestone and semi-fertile. It should be planted with other peach trees for cross-pollination. A peach that is recommended strictly for a fancy trade. Should not be planted in solid blocks because it is not self-pollinizing. **PRICED BELOW.**

AMBER GEM

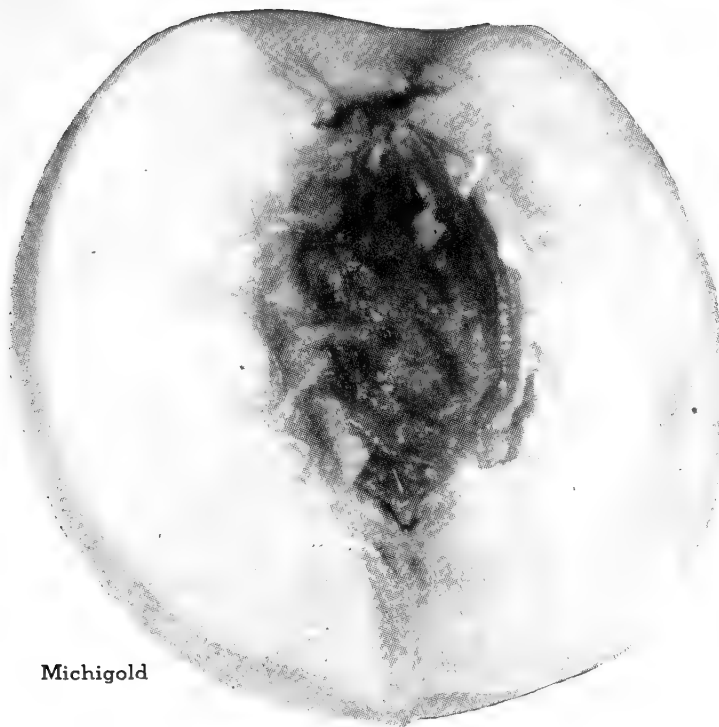

Frost-Proof Canning Peach

A peach that is huge in size, extremely bright red in color, tinged with yellow. A clingstone variety. The tree is thrifty, bears an enormous crop, and the peach is wonderful for canning. Extremely heavy-skinned, and the finest shipping peach we have. Very hardy. Used by commercial canners almost 100%. Does not dry rot on the tree and we should like to see every grower plant several trees for trial. **PRICED BELOW.**

PRICES—All Peaches Listed on This Page.

Dormant bud trees. Well branched and rooted.

11/16 in. caliper.....	1.60	15.00	30.00	90.00

Michigold

RED ROCKET

10% Larger Than Hale Haven—More Color

Ripens at a time when the market is always good. Fruit has an excellent yellow skin with a great deal of red when fully ripe. Flesh is firm and fine-textured. Outstanding for canning and shipping. RED ROCKET is considerably larger than Hale Haven and ripens about four to six days later. A bud sport of Fertile Hale, it originated in our own orchard. Does not dry-rot. **PRICED AT RIGHT.**

ELBERTA

Famous For Flavor—For Making Money

No other peach has ever attained the popularity of this variety. Slightly oval in shape, golden yellow skin with a slight blush. Fruit is thickly skinned, making it ideal for shipping. Excellent for canning, drying and freezing. Ripens medium late. Freestone and self-pollinizing, also a good pollinizer for other varieties. Usually bears third year—enormous producer at maturity. Trees are quite hardy, but may be affected by severe frost. **PRICED AT RIGHT.**

SPECIAL BARGAIN Husky 18 to 30 Inch Trees

We have again grown a number of husky 18-30 inch trees. These trees are headed especially low and we can furnish them in all the standard varieties listed below: ELBERTA, SULLIVAN'S EARLY ELBERTA, HALE HAVEN, KALHAVEN, PERFECT HALE, J. H. HALE, SCARLET ELBERTA, AMBER GEM and WHITE HALE. We will fully guarantee these trees in every way it is possible to guarantee a good tree.

**PRICE — In lots of 100 only
500 for \$125.00**

\$35.00

NET, NO DISCOUNT

Michigold

This variety ripens about the same time as Hale Haven, but is fully 15 to 20% larger. Has a bright golden color with a large amount of red if allowed to ripen, at which time it will run fully 60% red. A better quality peach than Hale Haven or South Haven, its large size always makes it bring a premium. It is freestone, self-pollinizing, and the tree is extremely hardy due to the fact that this variety originated in Michigan. Michigold should be more heavily planted by commercial growers. **PRICED BELOW.**

Hon-ee-gold
TRADE MARK
(HONEYGOLD)

**Will Not
Dry Rot
Fine Shipper**

A comparatively new peach named for us by one of our customers. It is a native of Michigan—a proven variety that has all of the good points and none of the bad. Hon-ee-gold is a marvel in size, slightly on the round type, 10% larger than Elberta. Ripens very late on the tree, has a bright red cheek and packs up beautifully in the bushel. Hon-ee-gold has excellent flavor. The inside is golden yellow with a slight amount of red next to the pit. **PRICED BELOW.**

PRICES—Michigold, Red Rocket, Hon-ee-gold Dormant bud trees. Well branched and rooted.

11/16 in. caliper	1.75	8.50	16.50	37.50

GOLDEN ELBERTA

Sweet and Juicy—Good Eating

It is identical with the common Elberta with the exception that it is golden-yellow with a slight blush on the cheek. Same season of ripening, same size, same shape as Elberta. **PRICED BELOW.**

Sullivan's EARLY ELBERTA

**Larger—Better—Ripens 7 to 10 Days
Before Old Elberta—Sells Fast**

Sullivan's Early Elberta is the new type Elberta peach that is sweeping the peach growing sections of the country. The tree is very hardy and is rapidly replacing the standard Elberta because it ripens 7 to 10 days earlier. It is identical in shape, color and flavor, but is slightly larger in size. Excellent shipper. **PRICED BELOW.**

SCARLET ELBERTA

Extra Heavy Crops—Needs No Thinning

Ripens a few days earlier than common Elberta, but larger in size. Absolutely hardy. Wonderful for market purposes. Ideal for deserts and canning. Tree is vigorous, strong growing, and bears young. Sets a heavy crop but does not require thinning. Self-pollinizing. **PRICED BELOW.**

PRICES—Golden Elberta, Elberta, Scarlet Elberta, Sullivan's Elberta

Dormant bud trees. Well branched and rooted.

Plant Improved Strains of APPLE TREES

ANOKA

Quickest to bear. No long waiting for fruit. Beautiful red striped fruit. Excellent to eat fresh and makes wonderful pies and applesauce. Hardy everywhere.

DOUBLE-RED JONATHAN

It colors up very early in the fall, and enables you to pick your fruit a week to ten days before the common Jonathan will color up. The fruit is firm, crisp and tender.

SOLID RED WINESAP

An improved strain of the Old Stayman's Winesap. It is a large, round, cherry red winter apple. Very popular.

RED NORTHERN SPY

An improved strain of the common Spy apple. Very popular for eating and wonderful for pies and sauces.

CORTLAND

Large, dark red and good shipper. The finest of our fall apples. It is a cross between the McIntosh and the Old Ben Davis.

YELLOW DELICIOUS

This variety is identical in shape and size with the ordinary red Delicious, but is completely yellow in color. Is sweetly acid in flavor, firm, crisp and juicy.

DOUBLE-RED DELICIOUS

The tree does well practically all over the United States. Fruit is a wonderful size,

is finely fleshed, juicy, and has a sweet flavor with a slight acid taste. Excellent for eating and most popular for fruit-stand purposes. Good winter apple.

WEALTHY

A fall apple, medium in size, and has a very fine flavor. Much desired for cooking and pies.

GRIMES GOLDEN

An all yellow apple. Round in shape, medium size and is quite acid in flavor. It ripens in the fall and is a good winter apple.

RED ROME

This variety is an all-red strain of the old type Rome Beauty. It is very highly prized for baking purposes. It is almost a solid red and of very large size. One of the best varieties for winter.

RED McINTOSH

A superior strain of the old type McIntosh. It is practically all red, a fine eating apple, of good size, and a delicious flavor.

R. I. GREENING

Old established sort. Yellowish green when ripe. Golden colored flesh. The best for cooking and home use

YELLOW TRANSPARENT

This variety is good to eat long before other varieties are ready. It is yellow in color, very crisp, juicy white flesh, and has a delicious flavor.

HYSLOP CRAB

This is the only variety of crab apple that we list, as it is by far the best. Fruit is dark purple color when fully ripened and has a wonderful flavor. Used by canners for pickling, jelly, etc.

You Pick Fruit Years Sooner by Planting Thrifty *SUPER SIZE* Bearing Age Trees

If you want 6 to 12 trees and quick results, order our Super-King Size Bearing Age Fruit Trees! They will bear in half the time and can be furnished in almost any variety. By setting these large trees you save time, as it requires from 3 to 5 years to grow them in the nursery. The cost, naturally, is higher, but your extra cost is quickly returned to you by the fruit which is produced

soon after planting. These trees require no special culture. They must be carefully planted, however, spreading out the roots in the opening and setting them deeply enough so that the wind will not blow them over. They should be carefully watered after planting and the addition of about 3 to 4 tablespoonsful of commercial fertilizer per tree is advised.

SUPER SIZE APPLE TREES

These are large trees. They will caliper more than one inch, are heavily branched and well rooted. For varieties see page fourteen. **6-7 ft. trees, \$2.50 each; 2 for \$4.25; 5 for \$10.00.**

SUPER SIZE PEAR TREES

Pears do not grow to a great height in the nursery but these trees will be from 5-7 ft. in height and one inch in caliper. See page eighteen for the varieties in which these Super Size Pear Trees are available. **5-7 ft. trees, each \$2.25; 2 for \$4.25; 5 for \$9.95.**

SUPER SIZE PLUM TREES

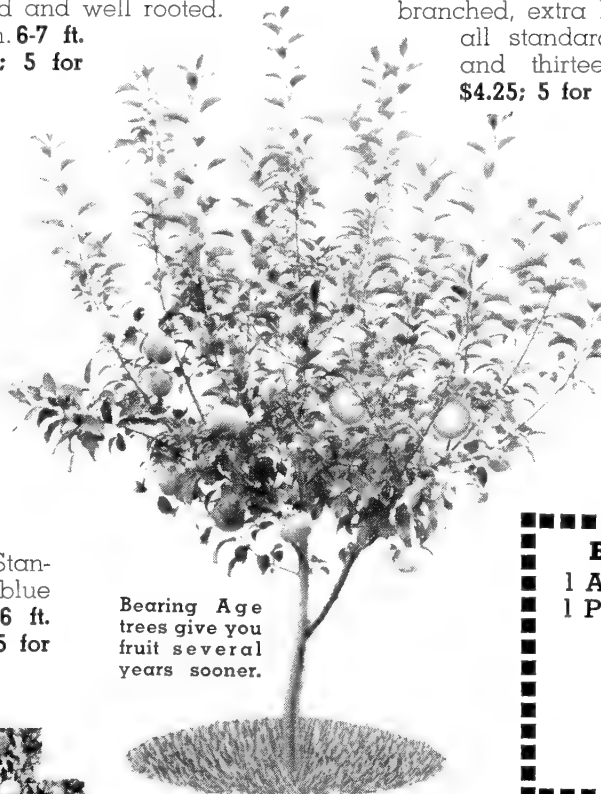

We offer Super Size Plums in Stanley Prune only. It's the best blue plum and will bear early. **5-6 ft. trees, each \$2.25; 2 for \$4.25; 5 for \$9.95.**

SUPER SIZE PEACH TREES

These peach trees caliper one inch and up. Well branched, extra heavy root system. Available in all standard varieties. See pages twelve and thirteen **5-6 ft. trees, \$2.50 each; 2 for \$4.25; 5 for \$10.00.**

SUPER SIZE CHERRY TREES

Available in Montmorency only. Blocky, heavy-bodied, well rooted, branched cherry trees. Will caliper more than one inch. Will bear quickly. Guaranteed to be virus free. **5 ft. up, \$2.25 each; 2 for \$3.95; 5 for \$8.85.**

Bearing Age trees give you fruit several years sooner.

5 In 1 APPLE TREE "The City-man's Apple Orchard"

The quintuplet apple is a tree that has been produced so that the small home owner, who has a restricted planting space, can have a variety of apples over a long picking season. We have budded some of the best kinds so that you will have a Double-Red Delicious, Jonathan, Winesap, Yellow Transparent, and Wealthy. These are five of the best varieties and they will bear fruit over a long period of time. The different varieties will bloom at different times and these trees can be used for ornamental purposes if desired.

These are large, 4 to 6 ft. trees, and are priced at **\$2.25 each; 2 for \$4.10; 5 for \$9.75.**

CAN BE SHIPPED BY FREIGHT OR EXPRESS ONLY.

Schmidt's
Bigarreau

SWEET CHERRIES

Sweet cherries require especially high, dry soil for successful growing. If you do not have this soil, don't waste your time planting these trees. Should be planted about 25 ft. square with no trimming done the first two years. Our alluvial soil produces a very fibrous root system, unlike most cherry trees from other districts which have only a tap root. Plant at least two trees, even if they are the same variety, for cross-pollination.

DELICIOUS
HEAVY BEARING

BLACK TARTARIAN

Very common black sweet cherry. The inside flesh is purple or almost black, and is very sweet and juicy. Popular for eating, canning and shipping. Ripens in July. Trees are hardy and bear young. Good producers of large size fruit. **PRICED BELOW.**

SWEET CHERRY PRICES

All budded and well rooted trees. Always set two trees for cross-pollination.

PRICES:	Each	10	50	100

NAPOLEON

A choice yellow sweet cherry of highest quality. Large size, very firm, juicy and sweet. Bears enormous crops ripening in July. Sometimes known as Royal Ann or White Oxheart. **PRICED AT LEFT.**

SCHMIDT'S BIGARREAU

The giant of the Black Sweet Cherries. A hardy strain of Bing, about the same size and appearance. Deep mahogany red in color, flesh is tender, juicy and fine-flavored. Bears young, hardy, sure cropper. **PRICED AT LEFT.**

WINDSOR

Large dark red cherry. Flesh is quite firm — an excellent shipping variety. Fruit clings to tree long after ripe. Hardy, prolific bearer, dark maroon in color. Self-pollinizing. **PRICED AT LEFT.**

NOTICE We cannot ship fruit trees into the following states: California, Colorado, Idaho, Nevada, Oregon, Utah, Washington and Arizona.

Everbearing Fig

Everbearing Fig

Have Sweet, Juicy Figs in Your Garden. Our Everbearing Fig is well adapted to growing in the north. Will produce either in the field or any container in which it is planted. Fruit is good size, sweet, firm, excellent for preserving or eating.

Nectarine

Full Crops of Large, Easy-to-Pick Fruit In the Smallest Yard

Dwarf Pears bear early
— often the next year
after planting.

Plant Exciting New

DWARF FRUIT TREES

Dwarf fruit trees can be grown successfully in very little space. They produce the same as the larger trees and bear quickly. Two or three years after planting, you can usually expect to get quite a crop of fruit. If you are cramped for space, plant a few of these dwarf trees. They only grow 10 to 12 ft. high and can be planted less than 15 ft. apart. We use only the best of Malling understock and you are assured of getting good trees, which will increase in value from year to year. Beautiful ornamental trees early in spring when they are in full bloom.

BARGAIN NO. 8

- 1 Apple 3-4 ft. (Your Choice)
- 1 Pear 2-3 ft. (Bartlett only)
- 1 Oka Cherry 3-4 ft.

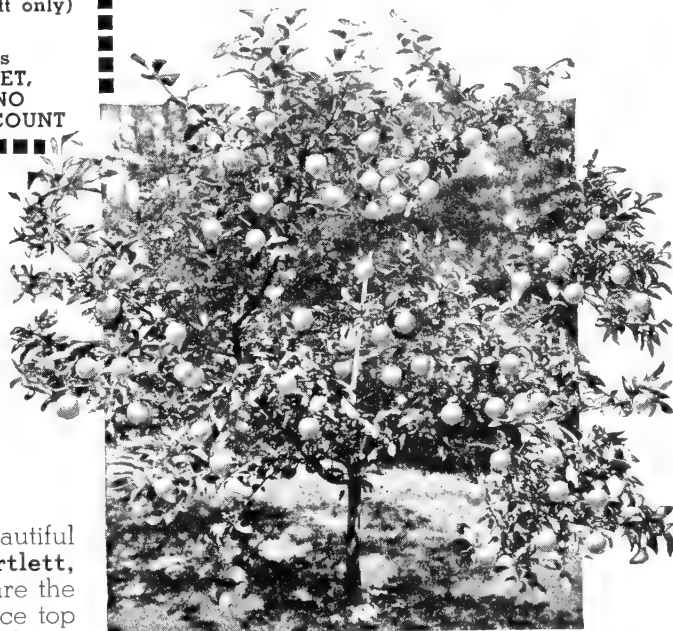

3 Dwarf Trees

DISCOUNT

DWARF APPLE TREES

Our Dwarf Apple trees are hardy and productive, often bearing more fruit than standard trees of proportionate size. Due to their small size, they are easy to prune and spray, and the fruit is very easily picked. We offer the following varieties in these dwarf apple trees: **RED DELICIOUS**, **SNOW APPLE**, **NORTHERN SPY**, **YELLOW DELICIOUS**, **EARLY MCINTOSH**, and **YELLOW TRANSPARENT**. Price 3-4 ft. trees \$3.00 each; 2 for \$5.50; 5 for \$12.50.

DWARF PEAR TREES

The trees are small but the pears are big! These beautiful heavy-bearing trees are offered in three varieties—**Bartlett**, **Flemish Beauty** and **Clapp's Favorite**. These pears are the best we have to-day for all purposes. These trees produce top quality fruit, often larger than average trees. Foliage and size make them very attractive for landscape work. Ideal for the small yard. Price 2-3 ft. trees \$1.95 each; 2 for \$3.50; 5 for \$7.95. 3-4 ft. trees \$2.50 each; 2 for \$4.75; 5 for \$12.25.

Above is a Dwarf Delicious the 3rd season after planting. These trees bear soon, have large crop of good-sized fruit.

DWARF SAPA PLUM

Red-fleshed Plum. Delicious, sweet, and juicy. Medium size. Small freestone. Produces in coldest climates. Fruit is firm, good for canning and shipping. Plant two for best results. **PRICE:** 3-4 ft. trees each \$1.85; 2 for \$3.60; 4 for \$6.80.

DWARF OKA CHERRY

Larger than Sweet Cherries, the fruit is dark purplish red all the way through. This handy Hybrid Cherry-Plum bears a full crop even in coldest climates where regular Sweet Cherries do not thrive. Sweet and delicious, fresh or canned. Small stone. Plant two for best results. **Price:** 3-4 ft. trees each \$1.85, 2 for \$3.60; 4 for \$6.80.

PEAR TREES

Clapp's

BARTLETT

The favorite commercial pear. Fruit is very large, juicy, golden yellow in color, with a soft blush. It is quite uniform in shape. Favorable for shipping, canning, and eating. The tree is a strong grower and produces very young. Hardy. **PRICED BELOW.**

CLAPP'S FAVORITE

Perhaps the largest of all pears, and always tops the market because of its excellent appearance. Greenish yellow skinned with a dark red blush. Quite juicy and sweet. A good shipper. Ripens shortly after Bartlett. **PRICED BELOW.**

FLEMISH BEAUTY

A pear that is honey sweet in flavor when fully ripe. Medium to large size, pale yellow colored with reddish brown cheek. Flesh is fine-grained, very juicy. Tree lives to a remarkably old age. Fruit ripens about the same time as Bartlett. **PRICED BELOW.**

Bartlett

LAWSON

This pear, which is about the same size as Bartlett ripens 50 days before Bartlett. It comes on the market when no other pears are to be had. It is golden yellow with a brilliant red cheek. Hardy and free from blight. **PRICED BELOW.**

SECKEL

Always in market demand and equally valuable for home use. Medium sized pear; ripens late September. Delicious flavor and quality—sweet as candy. Every garden should have a Seckel. **PRICED BELOW.**

BOSC

A favorite West Coast pear because it ships so well. A very long-necked pear which is used for boxing purposes, but is highly desirable because of its excellent flavor and shipping qualities. Flesh is tender, buttery, very juicy, with a rich flavor and pleasing aroma. Tree bears young and is hardy. **PRICED BELOW.**

GOLDBECK PERFECTION APRICOT

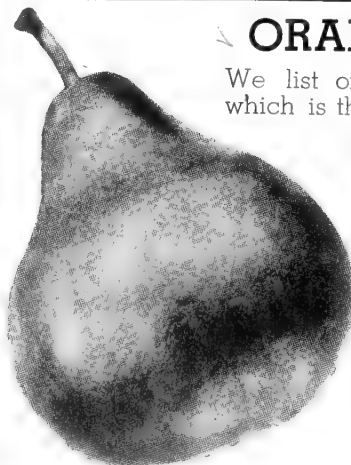

[18]

A perfect variety for vigor and hardiness. Very uniform in size, averaging that of medium sized peach. Delicious Flavor! Rich, golden colored apricot-yellow, ripening evenly all over. Can be picked tree ripe for shipping. The finest apricot today. **Prices:** 3-4 ft. \$1.50 ea.; 3 for \$3.75; 10 for \$11.95. 4 ft. up \$1.95 ea.; 3 for \$4.50; 10 for \$12.50.

ORANGE QUINCE

We list only one kind of Quince, which is the Orange variety. This is a dwarf growing tree which should be planted about 12 to 14 ft. apart. The foliage is very leathery, disease resistant and quite dark in appearance. Orange Quince is hardy in practically all sections. The fruit is as large as a good sized apple, golden yellow in color. This variety is valued very highly for preserving or jelly making.

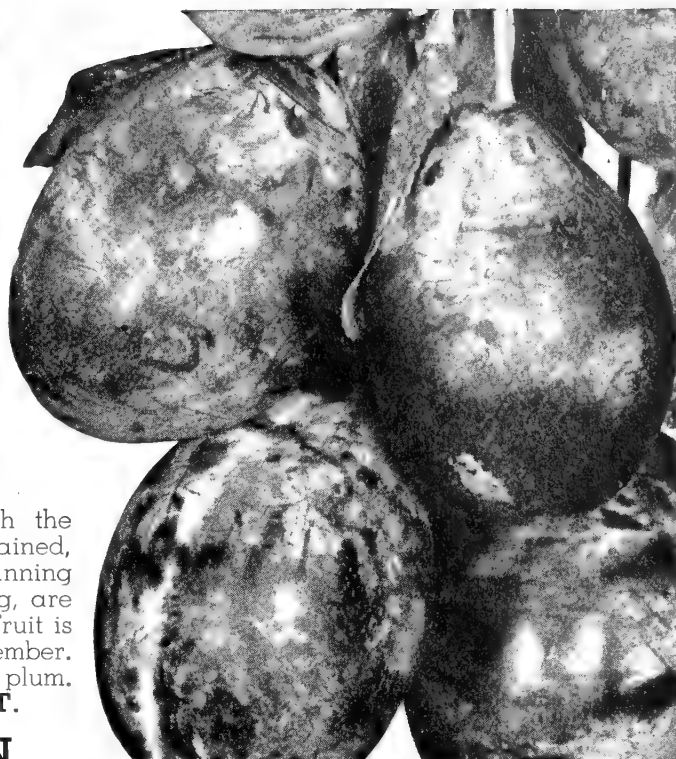

Price: 3-4 ft. trees each \$1.75; 3 for \$5.00; 6 for \$9.00.

PLUM TREES

STANLEY PRUNE

The Stanley Prune plum is without a doubt the finest and most beautiful blue plum that we have today. It is very large, very rich in flavor, and it is hardy in all sections of the United States. It is deep blue in color with a golden yellow flesh and it is absolutely freestone. The chief quality of Stanley Prune, other than its large size and beautiful color, is that it does not rot on the tree. It is quick bearing, often starting to bear the second year after it is planted. Excellent shipper. **PRICED BELOW.**

CONCORD

Grows on all soils, producing enormous crops of large blue-black berries of highest quality fruit. Highly resistant to drought, insects and diseases. Ripens mid-September. America's leading wine and table grape. **Huge 3 yr. plants, 85c each. Other plants PRICED ABOVE.**

SENECA

Commonly called the skinless grapes. Golden honey colored, flavor sweet and delicious. Vine is vigorous and very productive. A fine grape for storage. **Prices: 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.**

VAN BUREN

Absolutely new, although it has been thoroughly tested in all grape growing sections. Luxuriant grower, producing compact and well shaped bunches of blue-black color. Exceptionally sweet. Extremely early, ripening 3 to 4 weeks before any other grape is on the market. **Prices: 1 yr. No. 1 plants, 75c each; 5 for \$3.50; 10 for \$5.00; 50 for \$17.50.**

GOLDEN MUSCAT

Bunches are of good size, brilliant yellow in color, and have a delicious flavor. Will do well wherever the Concord grows. Excellent shipper and producer. **Prices: 1 yr. No. 1 plants, 80c each; 4 for \$3.00; 10 for \$7.00; 20 for \$13.25.**

NIAGARA

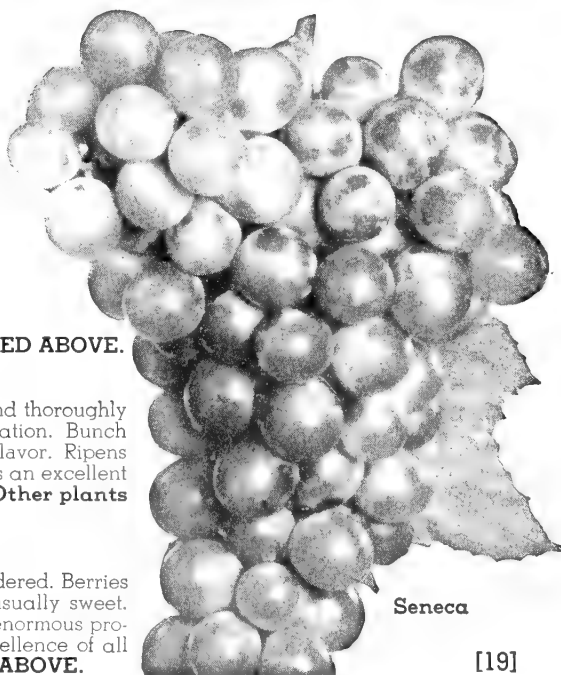

Leading commercial white grape. More productive than other white varieties. Berries are very large, and bunches compact. The quality of Niagara compares with Concord. **PRICED ABOVE.**

FREDONIA

A new early black grape, originated and thoroughly tested by the New York Experiment station. Bunch and berries are large with excellent flavor. Ripens fully 10 days before Moore's Early and is an excellent shipper. **Huge 3 yr. plants 85c each. Other plants PRICED ABOVE.**

DELAWARE

Small, compact bunch, sometimes shouldered. Berries are small, red, with thin skin, and unusually sweet. Ripens with Concord. Very hardy, and enormous producer. Long called the standard of excellence of all grapes as a table delicacy. **PRICED ABOVE.**

Seneca

Money-Making Pedigreed ASPARAGUS Plants

New PARADISE

Early, Easy to Grow, Rust Resistant, Immense Money Maker

The New Giant Strain of asparagus. It will produce a crop one or two years sooner than will any other known variety today. It is rust resistant, producing stalks of immense size and wonderful appearance. Is easy to grow, and once planted will last 12 to 15 years with very little care. Paradise is the first asparagus to produce in the spring, and this crop is harvested early when you do not need to be bothered with other things on the farm.

Paradise asparagus offers you a great opportunity to make money. These fine large rooted plants, produced from expensive pedigreed seed, enable you to buy the world's finest at a cost no higher than for common stock. Grown on special sandy soil, fertilized and dug with special machinery to get the whole root system, we offer you a premium plant at a reasonable cost. Paradise asparagus does not require any special care. We have complete culture on asparagus, ask for it when ordering.

MARY WASHINGTON

The pedigreed seed that we use produces specimen stock often more than an inch in diameter. It is very crisp and delicious. Wonderful for canning. The heads of Mary Washington are very solid and compact; thus, always commanding a better price than asparagus that has loose heads. This variety is absolutely rust resistant. Grows very fast and comes up exceedingly thick in the row, producing a very heavy crop. Approximately 5,000 plants are required to set an acre. Once planted they last for years, requiring little care. Starts to bear in Michigan in May and continues for about two full months.

Dwarf Orange

DWARF ORANGE

A wonderful plant of great beauty and novelty. Glossy green leaves, fragrant waxy white blossoms, tinged with pink. A beautiful house plant. Flowers are followed by edible fruit about one-fourth the size of ordinary oranges. **PRICE:** Potted plants in 2 1/4 in. pots 85c each; 2 for \$1.60.

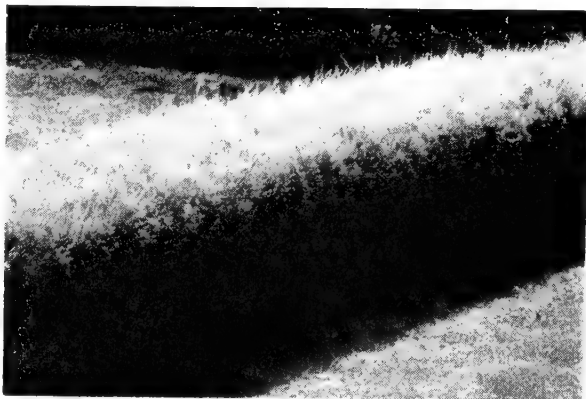

DWARF LEMON

(Grows Lemons indoors on small plants.) Most unique plants ever offered for indoor culture which was originally known as the Ponderosa Lemon. Covered with waxy-white, very fragrant flowers several times a year, followed by large lemons often weighing a pound. **PRICE:** 2 1/4 in. potted plants 85c each; 2 for \$1.60.

[20] American Wonder Lemon

Dwarf Blue Leaf ARCTIC HEDGE

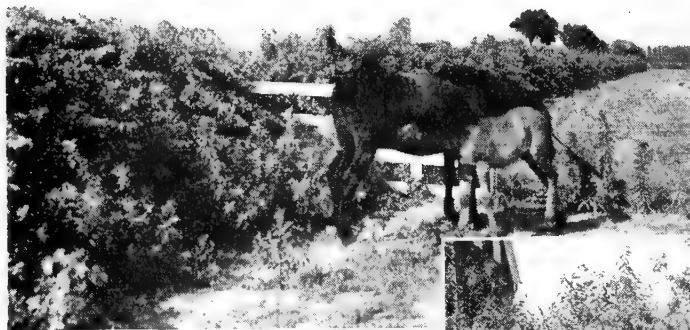

Dwarf Blue Willow. Low growing, excellent for hedges. Leaves cluster thickly from ground up. Foliage is a lovely gray-blue. Grows anywhere, even on wet or heavy soils. Matures into a beautiful, thick hedge, up to four feet tall if allowed to grow naturally. Plant 8 in. apart. **PRICE:** WELL ROOTED PLANTS 12-15", 3 for \$1.20; 10 for \$3.50.

A BEAUTIFUL LIVING BARBED WIRE FENCE

MULTIFLORA ROSE

Low Initial Cost—No Repairs

The Multiflora Rose is a living fence, is an aid to soil conservation, and it seems to be adapted to almost the entire Country. Grown on soil of average to good fertility, it will produce a hedge in three to four years that will turn any kind of livestock except small hogs and poultry. In May or June, a Multiflora Rose fence presents a spectacle of a ribbon of bloom running over the hillside. The white or dusty pink bloom comes all at once and lasts about two weeks. Foliage appears early in spring and persists until heavy frosts of winter. Multiflora Rose is a natural habitat for game birds and wild life of all kinds.

Stock-Proof and Well-Behaved

Multiflora Rose is being sold to those who realize that they can save a great deal of money by planting this type of hedge over the cost of posts and wire. This plant will grow and thrive under any conditions and throws up no sprouts nor does it spread from the roots. As it grows older, it continues to grow thicker and higher. It's an economical way to fence. This year we list only the large size plants as the small ones are too difficult to start. We suggest that you order them early as they are always in great demand and our supply is usually sold long before our shipping season is over.

Hardy Ornamental HEDGES

SPIREA VANHOUTTEI

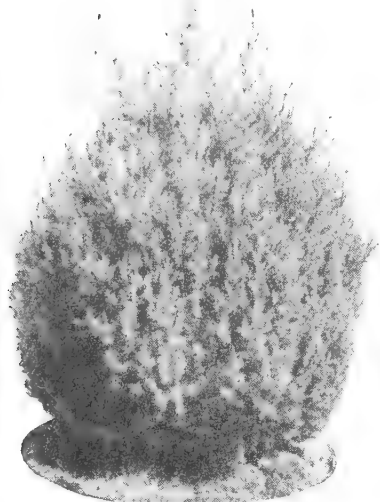

Bridal Wreath. During June its branches are literally covered with delicate white flowers. Beautiful bright green leaves come early and stay late. Very hardy and thrifty. 12-15 in. **Well Branched Plants,** each 25c; 10 for \$1.95; 25 for \$4.20; 50 for \$7.00. 18-24 in. **Extra-Heavy Plants** each 30c; 10 for \$2.75; 25 for \$4.95; 50 for \$9.00.

AMOOR RIVER PRIVET

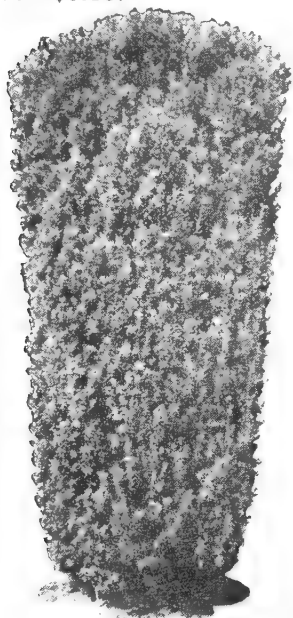

Succeeds anywhere, perfectly hardy. Shiny dark green leaves from early spring until late fall. Not subject to blight—resistant to insect pests. Trim to desired height and shape at any time during the summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For very wide hedge, plant 2 rows, alternating the plants. 2 yr. 12-15 in. **branched plants** 10 for \$2.15; 25 for \$4.55; 50 for \$7.25; 100 for \$12.50. 18-24 in. **branched plants** 10 for \$2.65; 25 for \$5.15; 50 for \$8.65; 100 for \$14.50.

EVERGREENS *for Year Around Beauty*

SPINY GREEK JUNIPER

Its usual habit is narrow and columnar, with many erect branches and branchlets. Foliage is spiny, with sharp points and of a glaucous blue color. Makes a very dense growth, eventually reaching a height of 5 ft. at maturity. May be trimmed as desired. **PRICE: 10-12" Transplants each \$1.50; 3 for \$3.75.**

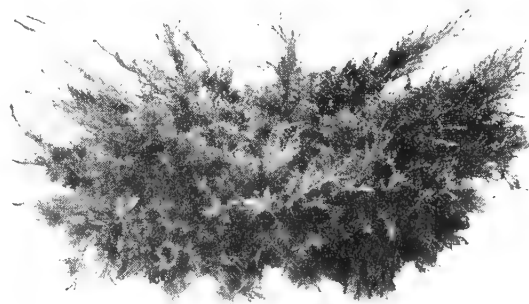

HATFIELD YEW

Grows in columnar erect form: Vase-shaped. Color is extremely dark green, the foliage heavy and luxuriant. Very hardy, easy to grow, and does well in shade. Somewhat resembles Hicks Yew. **PRICE: 10-12 in. transplants [22] each \$1.85; 3 for \$4.50.**

COLORADO BLUE SPRUCE

The Colorado Spruce is without a doubt one of the finest of blue-type evergreen trees. It grows to a great height and is an ornamental tree of glistening silvery blue from early spring to midsummer. Originated in the cold section, it is very hardy and is perhaps the most showy and popular of all spruce trees. We have grown a fine lot of this spruce, the seeds taken from carefully selected trees so as to obtain the very finest color. **PRICE: 10-12 in. heavy transplants each \$1.65; 3 for \$4.50; 5 for \$7.00.**

Pfizer's Juniper

Favorite of all spreading Junipers. Low, spreading bush with plume-like branches. Beautiful silvery blue-green foliage. Very hardy and will stand considerable shade. A favorite for foundation planting. **PRICE: 10-12 in. heavy transplants each \$1.85; 3 for \$4.50.**

SPREADING YEW

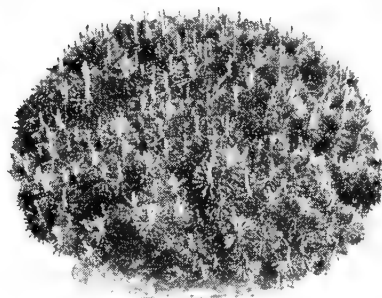

This type of Yew is similar to the Pfitzer. Branches out from the bottom into a low bushy formation. Can be trimmed to desired height or to fit space. Foliage dark green. One of the most popular evergreens. **Price: 10-12 in. heavy plants each \$1.95; 3 for \$5.40.**

Pyramidal Arborvitae

A favorite for entrances. Grows tall and narrow. One of our leading evergreens, it grows rapidly, has a shapely pyramidal habit and is easily trimmed. Very popular in this part of the country. **PRICE: 18-24 in. heavy plants each \$1.95; 3 for \$5.40; 2-3 ft. each \$3.25; 3 for \$8.95.**

Grow More Beautiful Each Year

MUGHO PINE

The leading Dwarf Evergreen. Numerous side branches begin close to the ground, spreading horizontally and turning upward in regular growth. Grow in shade. **PRICE:** 6-8 in. spread 85c each; 3 for \$2.40; 10 for \$7.50.

POPULAR DOORWAY PLANTING

NET. NO DIS-COUNT

Hemlock

CANADIAN HEMLOCK

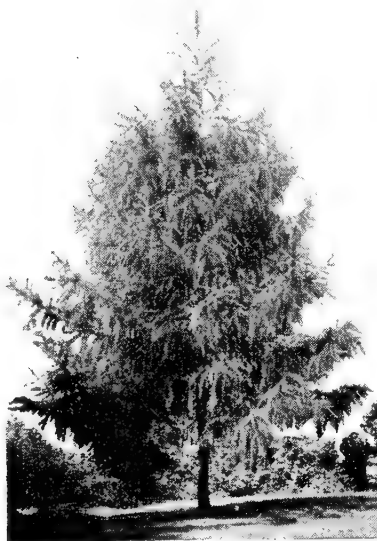

Most graceful of all evergreens, its long branches drooping gracefully to the ground. Needles are soft. Dark green on top, silvery beneath. Can be trimmed. **PRICE:** 8-10 in. each \$1.00; 3 for \$2.85.

IRISH JUNIPER

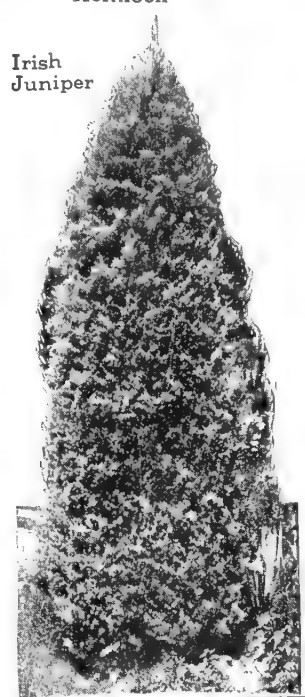

A tall columnar type with silvery green foliage. Very erect and slender. Excellent for use at entrances. Reaches a height of 7 to 8 ft. at maturity or can be trimmed to desired height. **PRICES:** 12-15 in. heavy transplants, \$1.25 each; 3 for \$3.45.

EUROPEAN LARCH

This is an upright conical grower. Begins to grow at low temperature with soft, feathery light green foliage early in spring. Again in autumn it is very beautiful as its needles turn a golden color before falling. One of our best lawn trees. **PRICE:** 12-18 in. trees \$1.00 each; 3 for \$2.75.

Irish Juniper

We recommend to you POPULAR GARDENING, America's new all-garden magazine. It will help you grow better flowers, fruit, vegetables and shrubs. A special introductory order form for customers is inclosed.

CLIMBING ROSES

For Porches, Fences, Trellises and Arbors

For display and for color, hardly anything can equal the climbing roses in full bloom. If they are used on porches, fences, trellises, or arbors, they greatly improve their beauty. All that we list are hardy. Plant 3 to 4 feet apart.

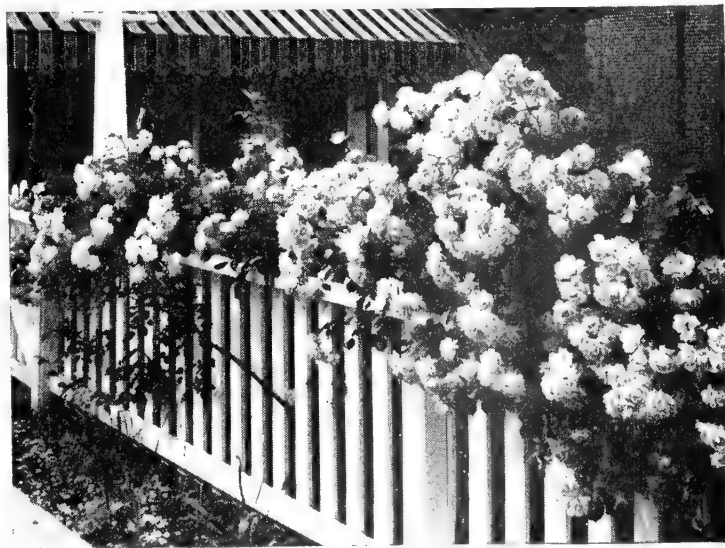

SILVER MOON—large buds, creamy white flowers with a faint ivory tinge and golden stamens.

PAUL'S SCARLET CLIMBER—intense scarlet flowers of excellent shape and good size, borne in clusters.

PRIMROSE—hardy, double canary-yellow roses.

NEW DAWN, EVERBLOOMING CLIMBING ROSE—apple blossom pink flowers with old-rose fragrance.

PRICE: 95c each; 3 for \$2.70.

Paul's Scarlet Climber

Hybrid Tea ROSES

Hardy 2-yr. field grown plants. They will grow from coast to coast and bloom all summer. PRICE: \$1.00 each; 3 for \$2.85; 10 for \$8.95.

CHRISTOPHER STONE (A) Free blooming plant producing fragrant velvety roses of vivid scarlet. A healthy, vigorous grower. One of the best bright red roses.

K. A. VIKTORIA (B) Popular, snowy-white, double. Fragrant flowers from early summer until frost.

THE DOCTOR (C) Silvery-pink. Immense blooms. Considered one of the most beautiful. Fine for cutting. Extremely fragrant.

TALISMAN (D) Glowing golden-yellow stained copper red. The buds are long pointed, flower is double, high centered.

GOLDEN DAWN (E) The gorgeous buds of yellow have splashes of carmine and open into large, fragrant flowers of rich yellow. Hardy, vigorous, blooms continually.

CONTRAST (F) Large double high-centered flowers of pink and bronze, reverse white and bronze. Long stem.

RED RADIANCE Bright rose-red. Form of radiance. Double, fragrant all summer and fall.

BRIARCLIFF Exquisite deep rose-pink. Extremely fragrant and a most profuse bloomer.

BETTER TIMES Brilliant cerise flowers, large, double, fragrant. Hardy, vigorous, free-blooming.

CALEDONIA Large double white; long buds opening to large double flowers. Come singly on long stems. Delicate fragrance.

P. S. DUPONT Bud reddish-gold, flower golden-yellow. From early summer until freezing this rose is covered with fragrant flowers.

PICTURE One of the very finest pink roses. Delightfully fragrant. The blooms are perfect in bud and when open. Hardy, free-blooming.

McGREDY'S IVORY A creamy-white rose that is fragrant and deep-petaled. Buds are long pointed, opening into very large, double flowers.

ETOILE DE HOLLANDE Dark, velvety-red with fine fragrance. The bush is strong, free branching and healthy. Fine for cutting.

Silver Maple

Moraine Locust

Wisconsin Willow

For Beauty and Comfort, Plant HARDY SHADE TREES

MORaine LOCUST Pat. No. 836

A very fast growing improved honey locust. It is absolutely thornless and vase shaped and fast spreading when older. It thrives under city conditions. Very tolerant of smoke, soot and dust. The foliage allows enough light to penetrate so that the grass will grow directly up to the trunk of the tree. It is very hardy, seedless and will grow on heavy or light soil and will withstand drought or flood. The supply is limited. **PRICES:** 5-6 ft. each \$5.00; 2 for \$9.80; 4 for \$19.00.

SILVER MAPLE

Most rapid grower of all maples. At maturity it reaches a height from 60 to 70 feet. Dark green leaves with a silvery surface underneath, turning gold in the fall. Thrives on all kinds of soil. **PRICES:** 4-5 ft. trees, each \$1.25; 2 for \$2.40; 5 for \$5.50; 10 for \$10.50.

EUROPEAN WHITE BIRCH

Hardy, tall-growing, upright lawn tree of distinctive character, its creamy white bark contrasting sharply with its foliage. Will thrive on either wet or dry soils. 4½-5 ft. trees, each \$1.85; 2 for \$3.40; 5 for \$8.00.

GOLDEN WEEPING WILLOW

Has golden yellow bark with narrow green leaves. Slender branches hang in a beautiful arch to the ground. Hardy, fast grower. 4-5 ft. trees, each 95c; 2 for \$1.75; 5 for \$4.10.

CHINESE ELM

Fastest growing shade tree today. Extra hardy, withstands cold winters, thrives on poor soil. Useful for windbreaks, and specimen planting. 4-5 ft. trees, each \$1.25; 2 for \$2.40; 5 for \$5.75; 5-6 ft. trees, each \$1.45; 2 for \$2.80; 5 for \$6.75.

WISCONSIN WEEPING WILLOW

A graceful tree with drooping branches sweeping the ground. Long slender green leaves and hardier than the ordinary Babylonica, Rapid grower. 4-5 ft. trees, each 95c; 2 for \$1.75; 5 for \$4.10.

LOMBARDY POPLAR

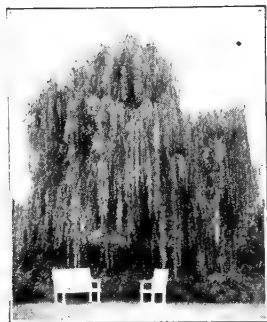

Well known for its tall, slender, upright growth. Rapid grower on any soil. Dark green leaves, lighter shade on under side, roots do not clog drains. 3-4 ft. trees, each 65c; 2 for \$1.20; 5 for \$2.75. 5-6 ft. trees, each 85c; 2 for \$1.60; 5 for \$3.75.

TULIP TREE

Tall pyramidal, with broad glossy leaves. Bears tulip-like flowers of white with green centers in June. Excellent for street or lawn. 3-4 ft. trees, each 90c; 2 for \$1.70; 5 for \$3.95.

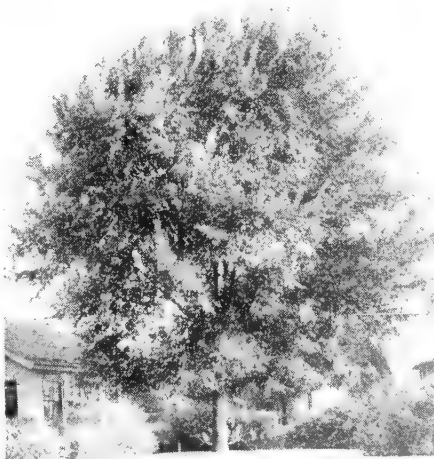

Lombardy Poplar

Golden Willow

Tulip Tree

Chinese Elm

European White Birch

CRIMSON KING RED NORWAY MAPLE

(Patent No. 735)

The Crimson King Maple is one of the most beautiful of all red-leaved trees. Grows identical with the common maple and is the same size, but has deep red leaves from early spring until late fall. Originated in Norway and is therefore entirely hardy. Creates a sensation wherever grown. These 2 yr. old trees will grow rapidly and become beautiful showy trees in a short time. Order your Crimson King Maple early as the demand exceeds the supply available, year after year. **PRICE: 4-5 ft. trees each \$3.75; 2 for \$7.00; 4 for \$13.00. NET, NO DISCOUNT.**

MAGNOLIA—Soulangeana

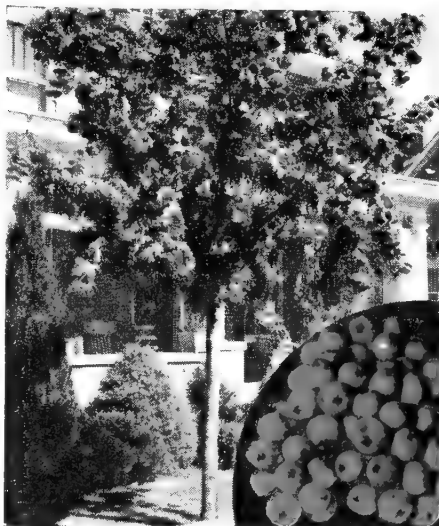

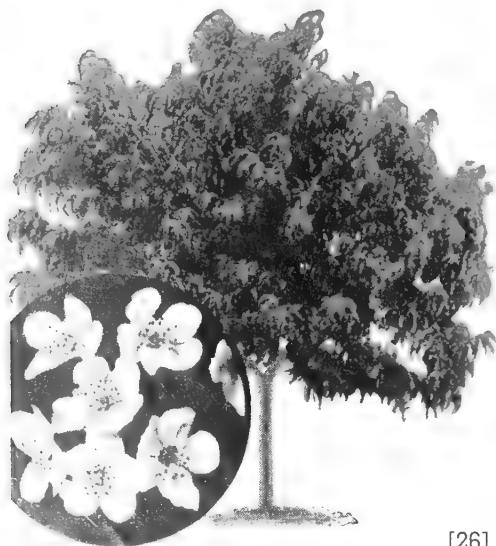

Magnolia Soulangeana is the most popular of the magnolias. Delightful fragrant blossoms appear very early in spring. Produces large rose-pink blooms long before any leaves appear. Reaches a height of 10-15 feet at maturity. Very ornamental. **18-24 in. trees. \$2.85 each; 2 for \$5.00.**

RED LEAF PEACH

Brilliant Red Foliage All Year

We offer this brilliant red-leaved tree as something quite new in the ornamental field. It is not only decorative, but produces worthwhile fruit at the same time. Its habits of growth are practically identical with the common peach, and its deep rose colored blossoms, against the red foliage, produces a very pleasant picture when set among other plantings. Fruit is white and highly flavored. Ideal for pickling. **PRICES: 3-4 ft. trees, each \$1.45; 2 for \$2.50; 10 for \$11.95. 4½-6 ft. trees, each \$1.65; 2 for \$3.00; 10 for \$13.95.**

Mountain Ash

MOUNTAIN ASH

A very popular tree all over America. In late summer it is laden with clusters of bright red berries against a background of lacy green foliage. Hardy and one of our most beautiful ornamental trees. May be trimmed as desired. At maturity attains a height of 18 to 25 feet. **PRICE: 3½-5 ft. trees, each \$1.95; 2 for \$3.50; 10 for \$16.50.**

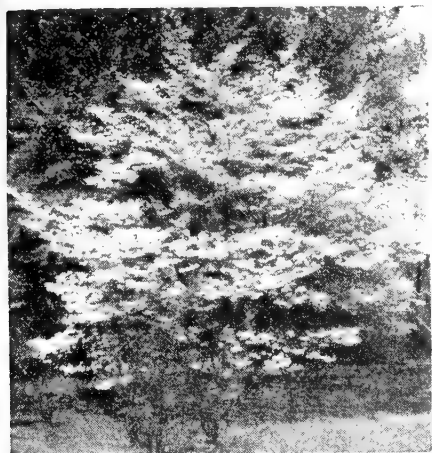

Red Dogwood

RED DOGWOOD

(*Cornus Florida Rubra*) Produces a great profusion of large rose-red flowers in the spring. Heavy with glossy red berries in the fall. Attractive grayish green foliage in the summer, turning a rich crimson in early autumn. Tree grows 10 to 15 feet tall. Well suited for small yards. Adds greatly to any landscape picture. **PRICE: 2-3 ft. trees, each \$2.75; 2 for \$5.00; 10 for \$22.50.**

Unusual, Exciting

Flowering Trees

White Flowering Dogwood

MAY DAY TREE

The first tree to leaf out in the spring and the first to bloom. Fragrant trusses of pure white flowers cover the entire plant during April and May. Flowers resemble Lilacs in shape and are lovely for cutting. Grows rapidly and is hardy. 2-3 ft. trees, each \$1.95; 2 for \$3.70.

May Day Tree

Flowering Peach

WHITE FLOWERING DOGWOOD

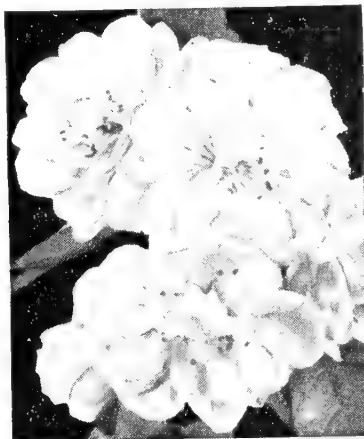

Large, white flowers with an extra row of center petals. Red berries in the fall, also the leaves turn red. Grows to a height of 10 to 15 feet at maturity. May be trimmed as desired. 3-4 ft. trees, each \$1.55; 2 for \$3.00.

FRENCH PUSSY WILLOW

Silky gray catkins burst forth to decorate the brown twigs early in the spring. Branches may be cut in mid-winter for bouquets in the house. Large tree-like shrub with long narrow leaves. 18-24 in. plants 80c each; 3 for \$2.25.

BECHTEL'S FLOWERING CRAB

A hardy, small, flowering tree. Compact grower, prune as desired. Double flowers of delicate pink resembling small roses, completely cover the branches in early spring. Very fragrant. Ideal for small lawns. Distinct lobed leaves. PRICE: 3-4 ft. branched trees, each \$1.95; 2 for \$3.80; 4 for \$7.00

Bechtel's Crab

HOPA CRAB

Most beautiful flowering crab that can be grown in the north. Absolutely hardy. Graceful, medium sized tree strikingly ornamental. Buds are blood-red, flowers deep rose colored. 3-4 ft. trees, each \$1.65; 3 for \$4.35.

FLOWERING PEACH

Flowers appear early in spring before the tree leafs out and are very thick. Height about 15 ft. at maturity. Available in RED or WHITE flowers. State color. 3½-5 ft. trees, each \$1.30; 3 for \$3.60.

SMOKE TREE

Purple Fringe Smoke Tree. Strikingly different shrub. Hardy and easily grown. In late summer and fall it is covered with fine, purplish, misty-looking flowers which give it a smoky appearance. Flowers are long lasting. 18-24 in. trees, each 85c; 3 for \$2.40.

Hardy Chrysanthemums

The Hardy Chrysanthemum is one of the most popular flowers today, producing from three to seven hundred blossoms per plant and the bush increases in size as it grows older. Easy to grow in ordinary soil in full sun or part shade. They are a solid mass of flowers all fall until extremely cold weather arrives. You'll pick many bouquets and still these fall favorites will blaze with color. We list them in five different colors: **red, yellow, pink, white and bronze.** Our plants are all field grown and of good size and are priced right. **PRICES:** each 40c; 3 for \$1.05; 10 for \$2.95. **NET, NO DISCOUNT.**

Hardy PHLOX

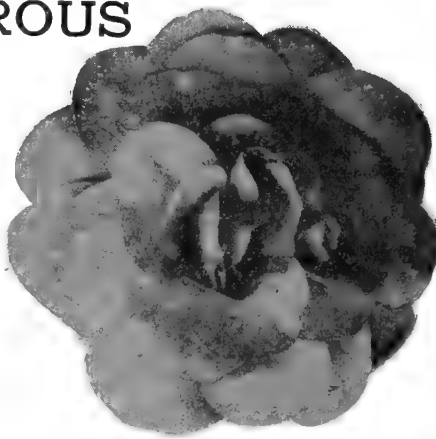

The Phlox that we list are all hardy field grown No. 1 plants; produced on soil specially prepared in advance for these plants and heavily fertilized. Digging them with our power digger gives them extra large root systems and gives you much more additional root system than ordinarily. They can be furnished in the following varieties:

Mary Louise—Pure white florets; large compact heads.
Salmon Glow—Flame pink with salmon. Vigorous grower.
Blue Boy—Nearest to true blue.
Chieftan—Deepest crimson.
Pinkette—Soft appleblossom pink.
Flash—Brilliant scarlet-red. Prolific bloomer.
Spitfire—Brilliant orange scarlet. Outstanding.

PRICE: Each 35c; 3 for 95c; 10 for \$2.95. **NET, NO DISCOUNT.**

HARDY TUBEROUS BEGONIAS

Camellia Flower Begonias
 Should be planted in partial shade. The begonia is a most glorious flower, exquisitely colored. Flowers double and well shaped; broad leaves. Our bulbs are selected and will bloom this year. Colors: **Red, white, maroon, yellow and scarlet.**

Flowering SHRUBS

BUDDLEIAS

(Butterfly Bush) Also frequently referred to as "Summer Lilac." Blooms from early summer to frost, with panicles often 15 to 18 in. long. Flowers are fragrant and profuse. Available in **CHARMING** (Pink) **ILE de FRANCE** (Rosy-purple), **DUBONNET** (rich wine-red with slight purple overcast), and **EMPIRE BLUE** (Pat. No. 557). Buddleia plants consist of roots only, with a small dead top for handling. **STRONG FIELD GROWN PLANTS** 85c each; 3 for \$2.40.

HIGH BUSH CRANBERRY

Blossoms in spring and bears edible fruit of excellent flavor in fall, when foliage turns red and gold. Hardy. **Field-grown plants** each 95c; 3 for \$2.70.

PHILADELPHUS VIRGINALIS

(Double Mock Orange) White. Everblooming. Blooms profusely in June and intermittently until frost. 6 to 7 ft. at maturity. **Strong field-grown plants** 85c each; 3 for \$2.40.

HANSEN'S BUSH CHERRY

White flowers in spring, maroon-red leaves in fall. Tasty fruit is plum-shaped and the size of a sweet cherry. Easy to grow. 18-24 in. plants 70c each; 3 for \$1.95; 10 for \$6.00.

ROSE TREE OF CHINA

(*Prunus Triloba*) Beautiful hardy flowering plum, covered with small full double rose-like pink blooms before leaves appear. Grows to height of about six feet. 2-3 ft. trees each \$1.55; 3 for \$3.90.

MOCK ORANGE

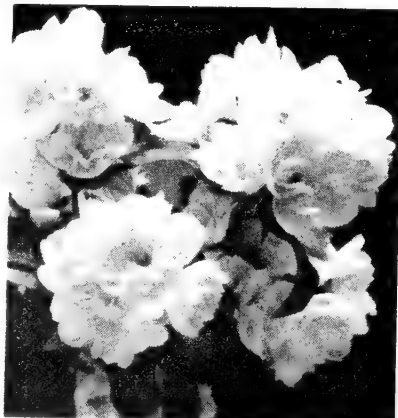

Fragrant white flowers in early spring, closely resembling orange blossoms in form and fragrance. A tall bush with dark green foliage. Very hardy. Fine for foundation and in group plantings. **Strong field-grown plants** each 75c; 3 for \$2.10.

HYDRANGEA P. G.

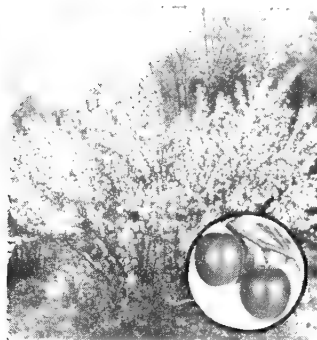

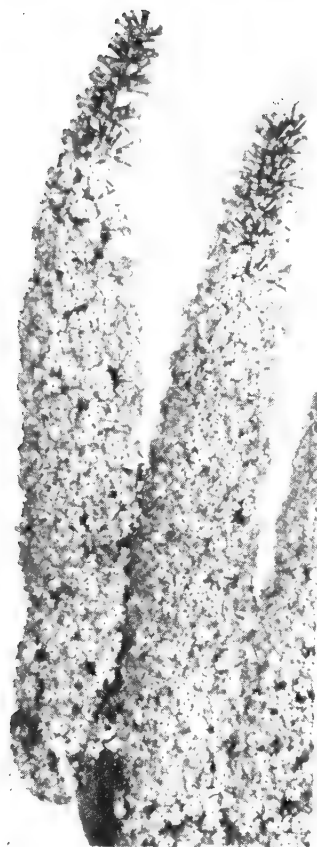

(*Hills of Snow*) Very hardy and especially good in partial shade. Large clusters of snow white flowers changing to light to pink later on. **PRICE:** 2-yr. field grown plants each, 95c; 3 for \$2.70.

Lovely For Every Purpose

Make a Home Out of a House

TAMARIX HISPIDA

Very dense, silvery-blue feathery foliage. Bright pink flowers all summer. 10 to 15 ft. at maturity but can be pruned to desired height. 18-24 in. plants each 75c; 3 for \$2.10.

BLUE HYDRANGEA

Prefers acid soil and does well in shade. Blue color is produced almost entirely on new wood and pruning is recommended, as flowers on old wood may show pink the second year. At maturity this Hydrangea will be 2 to 3 ft. in height and a solid mass of blue flowers. **Strong field grown plants.** PRICE: \$1.50 each; 3 for \$4.05.

Red Snowberry

Pink flowers in June, followed by red berries in clusters the full length of graceful branches. Does well in sun and shade. Grows to medium height. 18-24 in. plants. PRICE: 85c each; 3 for \$2.40.

Weigela Rosea

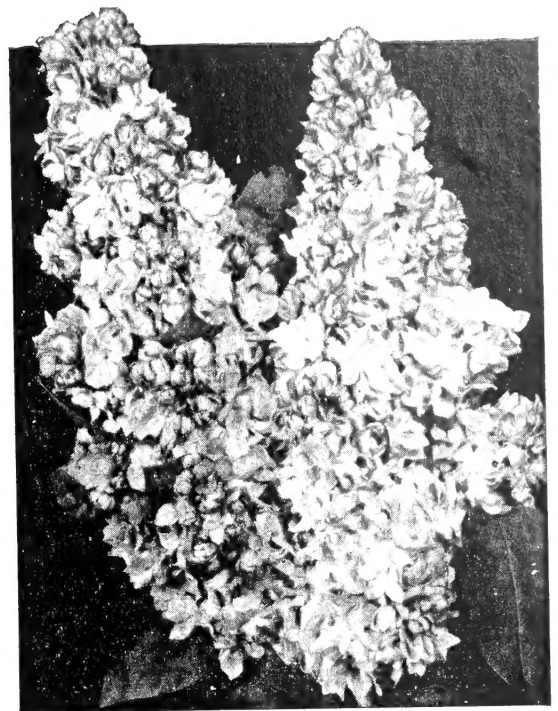

Tall and vigorous growing with trumpet-shaped, rosy-pink flowers in thick clusters along each branch in June. Grows 4 to 5 ft. tall and may be trimmed as desired. 18-24 in. field grown plants. PRICE: 85c each; 3 for \$2.25.

Red Flowering Quince

(Japan) Very early in spring this shrub is covered with bright orange to scarlet flowers, followed by small fragrant quince-shaped fruits. Grows 5 to 7 ft. tall. 18-24 in. each 85c; 3 for \$2.40.

WHITE SNOWBERRY

A desirable shrub with small pink flowers followed by large white, wax-like berries which cling through most of the winter. Very showy. Succeeds anywhere. 18-24 in. plants. PRICE: 85c each; 3 for \$2.40.

FRENCH LILACS

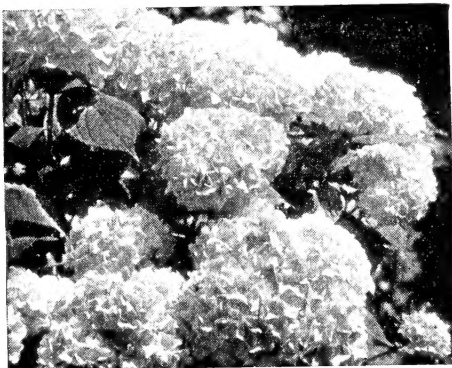

These French Lilacs cannot be adequately described. Last a lifetime and every year adds to their beauty. Attain height of 6 to 8 ft. Bloom very young. Flowers extremely fragrant. Following varieties available.

MME. FLORENT STEPMAN. Pure white panicles.
THUNBERG. Violet-mauve. Late blooming.
LUDWIG SPAETH. Rich purple-red. Bush is large and blooms profusely.
PRESIDENT GREVY. Immense double panicles of clear blue.

18-24 in. plants. PRICE: \$1.45 each; 2 for \$2.75; 4 for \$5.20.

STAINLESS STEEL HOES

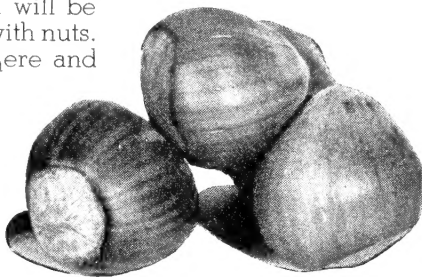

The reason that we offer this commodity to our customers is that we have been so impressed with the lightness and sturdiness of this hoe. It is made of stainless steel and will not rust so when you get ready to hoe in your garden, it is always polished and ready to go to work. It is about four times stronger than ordinary metal and the blade is much thinner, thus making it easier to manipulate. The shanks of the hoe are all in one solid piece and the metal is guaranteed for the life of the hoe. The handle is entirely of aluminum tubing. We think this is the world's finest garden hoe. All models have mirror finish blades.

NO.	PRICE
1—"Two In One" Hoe, Aluminum Handle	\$2.45
2—"Six In One" Hoe, Aluminum Handle	2.45
3—High Blade, Aluminum Handle	2.18
4—Med. Blade, Sharp Three Sides, Aluminum Handle	2.18
5—Low Blade, Lightweight, Aluminum Handle	2.18
6-7 Florist Special, Aluminum Handle...	2.18
Order By Numbers. Mixed Orders OK.	

HARDY HAZELNUTS

The Hazelnut trees which we offer are nursery grown stock and will be well rooted and branched. Makes a fine well-branched shrub, 5 to 6 ft. tall and very attractive. Bears very early. In fall leaves turn scarlet and bronze and the bush will be completely covered with nuts. Grows almost anywhere and produces huge crops. Set two or more for best results. **PRICES:** 18-24 in. 2 yr. br. trees 90c each; 3 for \$2.55; 10 for \$7.95.

Butternut

BUTTERNUT

This native nut tree grows in almost every section of the United States. Attains large size at maturity. Starts to bear very early, about 3 to 5 years of age, and will produce a crop annually. The native Butternut is a conical shaped nut that is very nutritious, carrying a very large amount of oil. It grows very easy. It makes an excellent shade and you can plant them in any corner or other sections where ordinary trees cannot be produced, as they require no spraying. **PRICES:** 2-3 ft. trees each 85c; 2 for \$1.60; 5 for \$3.75; 25 for \$17.50. 3-4 1/2 ft. trees each \$1.10; 2 for \$2.00; 5 for \$4.75; 10 for \$9.25.

Hardy ENGLISH WALNUTS

NORTHERN GROWN—THIN SHELL

Plant Nut Trees For Profit, Beauty Shade and Pleasure

The hardy English Walnuts which we handle are all direct descendants from the original seed which was sent here from the Carpathian Mountains. Their hardiness, rapidity of growth, their long life and beauty, and finally their timber, makes them very desirable. Besides this, they produce large quantities of edible nuts and add greatly to the value of any property on which they are planted. These trees are not always fertile, therefore we suggest that more than one be planted for cross-pollination and guaranteed success.

CARPATHIAN

The Carpathian English Walnut is the king of nut trees. It is a paper shell walnut. Grows in many parts of the world. Hardy. Produces nuts varying in size from that of the California English Walnut to three times its size. **PRICES:** 2-3 ft. branched trees each \$2.65; 2 for \$5.10; 5 for \$12.25; 10 for \$22.50. 3-4 ft. branched trees each \$3.25; 2 for \$6.30; 5 for \$15.25; 10 for \$29.50.

FREE CULTURAL INSTRUCTIONS FOR ALL NUT TREES
INCLUDED WITH ORDER UPON REQUEST.

KRAL HICKORY NUTS

We are offering the Kral Hickory Nut for the first time this year. It is absolutely new in Hickory Nuts. The parent trees were grown about fourteen miles from us and it produces nuts of extremely large size. It has very good cracking possibilities. This is a wonderful

Hickory
Nuts

Hickory Nut and we price them to you at a figure which you cannot afford to overlook. If you want a good Hickory Nut, plant one or two of these.

PRICES: 18-24" trees each \$1.75; 2 for \$3.00.

NATIVE BLACK WALNUT

Black Walnuts are grown from seed produced on our own farms from the Thomas, Stabler, and Weir varieties. While not as thin shelled as the nuts from cultivated trees, they are excellent and you still have a better Black Walnut. These trees are hardy anywhere in the U.S. and thrive in sunny, well-drained soil. Fast growing and long lived. **PRICES:** 3 1/2-4 ft. each 95c; 5 for \$3.95; 25 for \$18.75; 50 for \$35.00.

Hardy ENGLISH WALNUTS

It has only been in recent years that these Hardy English or paper shell Persian Walnut trees have been available. These trees grow in many parts of the world; the hardest being found in Poland and the Northern Carpathian mountains where the temperatures drop to much below zero. We list the Carpathian variety. In Canada, where our trees had their source, this variety has been a very heavy producer and thousands are now growing in many of the northern states. Further description and prices on opposite page. **PRICE:** 2-3 ft. branched trees \$2.65 each; 2 for \$5.10; 5 for \$12.25; 10 for \$22.50.

3-4 ft. trees priced on opposite page.

Large nut trees do not transplant readily. Therefore larger sized trees are not offered.

NUT TREE BARGAIN "B"

- 2 Chinese Chestnut 2-3 ft.
- 1 English Walnut 2-3 ft.
- 1 Hardy Pecan 18-24 in.

All four
Trees for **\$6.65**

NET, NO DISCOUNT

CHINESE CHESTNUT

The Chinese Chestnut is absolutely blight resistant and is very hardy. It produces nuts that are of fine flavor and they are larger than those produced on the ordinary American type variety trees. They are long lived. We suggest that you plant two or more trees for best results.

PRICES: 2-3 ft. branched trees each \$1.95; 2 for \$3.70; 5 for \$8.95; 10 for \$16.95.

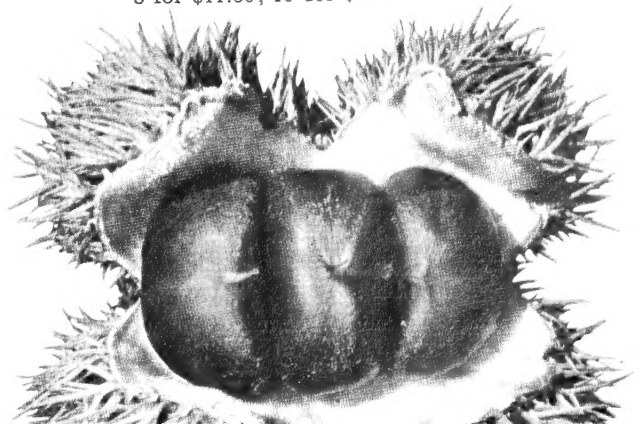

PRICES: 3-4 ft. branched trees each \$2.45; 2 for \$4.70; 5 for \$11.50; 10 for \$21.00.

HARDY PECANS

We have spent a lot of time and effort to secure or locate Pecans which will be suitable for our customers. We have finally secured a source of good seed, and can now offer you a Northern Pecan which is as hardy as any Hickory nut, and should not be confused with the Southern Pecan. These trees grow naturally on overflow lands, but they will grow any place where you have good soil. They are very able to adapt themselves to different conditions. They make a beautiful ornamental tree, growing to a great height in the course of time, and will produce a wonderful crop of nuts if conditions are right.

PRICES: 18-24 in. trees each \$1.20; 3 for \$3.30; 10 for \$9.75.

2-3 ft. trees each \$1.55; 3 for \$4.35; 10 for \$12.75.

MONTMORENCY SOUR CHERRY

Hardy and Productive!

This is the only sour cherry that is profitable to grow. We have selected buds from the finest trees obtainable. Our stock is mostly budded from parent trees that were under the auspices of the state and the buds were sent to us here from these trees. It is preferred by all canners and ripens mid-season till late. Our trees are certified by the Michigan Department of Agriculture and are propagated from virus disease free budwood.

COMMERCIAL GROWERS

If you are interested in Montmorency in large quantities, get in touch with us and we will be pleased to quote you by return mail prices that may be a surprise to you. We have thousands of trees this year, both one and two year old, that are absolutely guaranteed in every way.

PRICES:

	Each	10	25	100	500
5/16 Branched		\$ 6.95	\$16.50	\$ 60.00	\$275.00
7/16 Branched	\$1.40	10.50	21.95	70.00	325.00
9/16 Branched	1.65	11.00	24.50	80.00	375.00
11/16 Branched	1.95	14.95	27.50	100.00	450.00

All well rooted and branched trees.

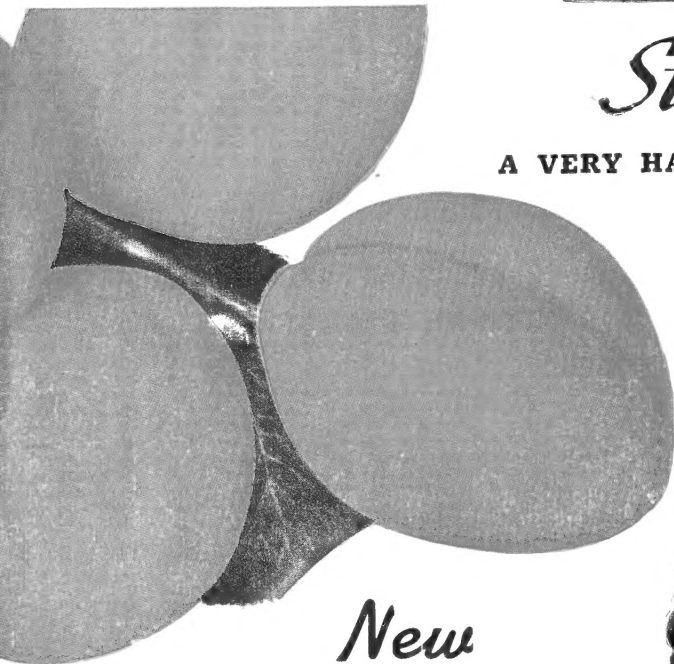

Starglow APRICOT

A VERY HARDY APRICOT, ORIGINATING IN MICHIGAN

This marvelous new apricot originated in central Michigan and is of very large size, brilliant yellow color, marvelous flavor and absolutely freestone. The fact that this apricot is a seedling which came up in Michigan should make it especially hardy and late flowering, which is a very desirable feature in all apricots. Starglow apricots will produce a crop of fruit for you where most of the other apricots will fail. Self pollinizing.

PRICE: 3-4 ft. trees \$1.65 each; 3 for \$4.50; 10 for \$13.25.
4 1/2 ft. and up \$2.15 each; 3 for \$5.25; 10 for \$14.95.

New

"Ebony King"

BLACKBERRY

FIRST TO RIPEN—GUARANTEED TO BEAR 100%

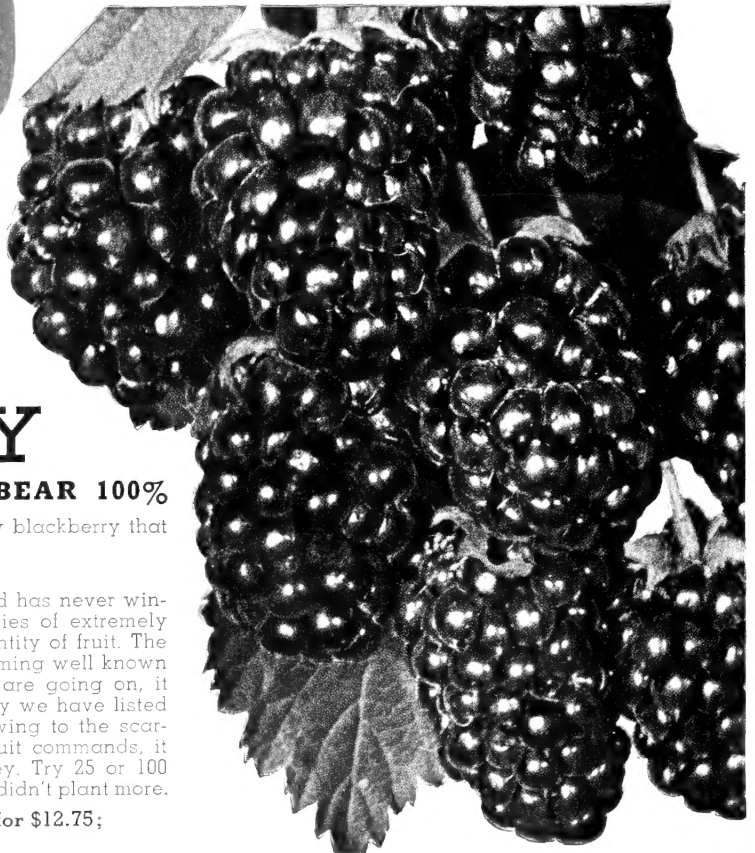

The Ebony King Blackberry is the first to ripen and the only blackberry that we can guarantee every plant to bear a fine crop of fruit.

IMMUNE TO COLD WEATHER

The Ebony King is very hardy, originating in Michigan, and has never winter killed here since it has been planted. It produces berries of extremely large size and each plant is covered with an immense quantity of fruit. The flavor is very sweet and it has very little core. It is just becoming well known and on the Pacific Coast where large canning operations are going on, it is in very heavy demand. Ebony King is the only blackberry we have listed and that is because we can guarantee it to fruit 100%. Owing to the scarcity of blackberries today and the high price which the fruit commands, it offers growers an opportunity for making some easy money. Try 25 or 100 plants and as they come into bearing, you'll regret that you didn't plant more.

PRICES: No. 1 plants 12 for \$3.50; 25 for \$6.75; 50 for \$12.75;
100 for \$18.50; 250 for \$39.25.

Ebony King is the only kind we can furnish; all others have been discontinued.

STAHELIN'S NURSERY, Berrien County, Bridgman, Michigan
